UNITED CHURCH NEW BASEMENT DEDICATED

Very large congregations attended the United church on Sunday morning and evening last, the occasion of the reopening following a programme of extension and renovation of the edifice.

In the morning at 11, the young people of the senior and junior Sunday schools, together with a considerable number of adult members of the congregation and friends, gathered to hear Dr. Melvin. Special music formed an important part of this service and a very interesting talk was listened to. Prior to this service, a short service, dedicating the new basement to the service of God, was conducted by Dr. Melvin.

In the evening, Dr. Melvin took as his subject: "An Incomplete Biography," dealing with the life of Jesus, and delivered an able and very interesting discourse. His text was taken from John 21:25—"And there are also many other things which Jesus did, the which, if they should be written every one, I suppose that even the world itself could not contain the books that should be written."

On Monday evening, the Ladies Aid served a supper in the new basement, following which all repaired to the church where a programme of speeches, music, etc., was gone through. The chair was occupied by the pastor, Rev. J. W. Smith, B.D. Vocal selections included solos by Mrs. Bannan, Mrs. Price and Mr. J. R. Smith and a duet by Mesdames Bannan and Price, while Miss Betty Greig rendered a very pleasing piano solo. The speakers were Rev. Dr. Melvin, of Bellevue; Rev. H. J. Bevan of Coleman, and Rev. Mr. Smith. The visiting clergymen brought greetings from their various parishes, complimenting the people of Blairmore and their pastor upon their zeal towards expansion and progress here and wishing continued success. In the course of a splendid address, Rev. Mr. Bevan made brief reference to the gallery and the place it filled in the work of the church. In it you would find those whose bashfulness did not permit them to occupy place elsewhere in God's house, and the sympathy of us all should be extended to those who feel they should occupy the gallery. Dr. Melvin delivered a very able address, taking as his subject: "The Task of the Church."

The ladies desire to thank all who in any way assisted towards the success of the supper.

The new basement is spacious and affords ample room for dining and for many of the activities of the United church and fills a long-felt want. The heating system has been completely overhauled and assures a comfortable building at all times. Further extensions are planned to be made next year.

BLAIRMORE FIRST AID ASSOCIATION

The first regular class of the Blairmore First Aid Association will be held in the general offices of the West Canadian Collieries, Limited, at 2 o'clock on Sunday afternoon next, November 3rd, for male members only. All old and new members intending to take up this work should attend this class.

The association regrets to advise that due to the fact that it is unable to obtain the services of a lady instructor, it will not be possible to hold female classes this year.

A barber was much surprised to receive a tip before he had cut the customer's hair. "Thank you, sir! It isn't many who tip us first," he said. "That isn't a tip," snapped the man in the chair. "That's hush money."

LADIES' GOLF CLUB

The members of the Ladies' Golf Club brought the season to a close on Saturday last with a picnic tea after an eighteen-hole competition.

The prizes were presented by Mrs. Plunkney, senior. The competitions began the first Saturday in May and continued without interruption for six months. On the first Saturday of each month, a nine-hole hop was played. The prize given by Mrs. Gilhe was won in May by Mrs. J. Smith, in June by Mrs. Fashmore, in July by Mrs. Turner, in August by Mrs. Thompson, in September by Mrs. Greig and in October by Mrs. Kerr. The six players had to play-off, Mrs. Kerr winning the prize.

On the third Saturday of each month a 9-hole hop competition was played for a prize given by Mrs. Green. The May winner was Mrs. Gillis; June, Mrs. Granger; July, Mrs. Thompson; August, Mrs. Fashmore; September, Mrs. Greig; October, Mrs. Pattinson. In the play-off, Mrs. Thompson won this prize.

On the third Wednesday of each month, the mixed fourzones were played. The winners for the season were: May—1st, Mrs. Bennett and Mr. Scott; 2nd, Mrs. Gillis and Mr. Bennett. June—1st, Mrs. Greig and Mr. Emmerson; 2nd, Mrs. Steeves and Mr. Pattinson. July—1st, Miss Greig and Mr. W. Kerr; 2nd, Mrs. Rhyms and Mr. Pattinson. August—1st, Mrs. Rhyms and Mr. J. B. Wilson; 2nd, Mrs. Turner and Mr. Pattinson. September—1st, Miss Greig and Mr. W. Kerr; 2nd, Mrs. Greig and Mr. Pattinson. October—1st, Mrs. Pattinson and Mr. W. Goddard; 2nd, Mrs. Thornton and Mr. W. Scott.

Special competitions were held during the summer, for which prizes were offered by ladies in the club and tea was served at the club house.

On May 9, a nine-hole hop was played. The prize, given by Mrs. Farmer, was won by Mrs. Kerr. In June, the angles elimination, 18 holes. First prize, given by Mrs. Thompson, was won by her. She kindly handed the prize back for further competition. The second prize, given by Mrs. Kerr, was won by Mrs. Turner. In July, for a nine-hole hop midweek competition, the prize given by Mrs. Scott was won by Mrs. Whitehead. On the last Saturday in July, Mrs. Greig gave a prize for a nine-hole tournament competition, which was won by Mrs. Turner. In August, Mrs. Morgan gave a prize for a nine-hole hop, which was won by Mrs. Thompson. On the same day a prize given by Mrs. Morgan for putting was won by Mrs. Green. A competition against par, held the last Saturday in August, was won by Miss Greig.

The mixed elimination was begun in August, the finals of which have to be played between Mrs. Gillis and Mr. Scott against Mrs. Morgan and Mr. Farmer.

During September, the ladies played doubles elimination. The prizes given by Mrs. Thompson were won by Mrs. Smith and Mrs. Scott. The consolation prizes went to Mrs. Kerr and Mrs. Greig.

A dozen balls given by Mr. Farmer for an eighteen-hole tournament competition were won by Mrs. Pattinson, first; Mrs. Granger, second.

During October, singles elimination competition lasted until the end of the month. First prize was won by Mrs. Kerr, consolation by Mrs. Greig.

The prize given by Mrs. J. R. Smith for the electric competition in September, was won by Mrs. Kerr.

On October 26th, the closing day, an eighteen-hole hop competition was won by Mrs. Thompson, who was handed a prize given by Mrs. Whitehead.

The captain and officers of the club thank all who worked on committees and helped make the season a success. Also do they thank all those who gave the committee prizes, for competition and those who arranged

"I say, Bill," said the bricklayer to his mate in the tramcar the other evening, "what's a cosmopolitan?"

"Well," was the careful reply, "if there was a Russian Jew living in Scotland, an Italian wife, smoking Turkish cigarettes at a French

window, in a room with a Persian carpet, and a German band was playing "The Dear Little Shamrock" after a supper of Dutch cheese made into a Welsh rabbit, you'd be quite safe in saying that that chap was a cosmopolitan."—Mrs. W. K. Murie, Darned, Sask.

How To Keep Young

Eat Less, Sleep More, Drink Water, and Laugh

An aged New York man, who has led a busy life, and a good one to boot, offered the following recipe on how to live long.

"When you get old, eat half as much, sleep twice as much, drink three times as much water, and laugh four times as much."

The advice is no doubt good. It recognizes the psychological factor as well as the material. Laughter is one of the most valuable emotions of humanity. It has a physical effect on the body by stimulating certain abdominal muscles, and it has a mental reaction which is a tonic to one's outlook on life.

People growing old, who have not the physical capacity for enjoyment and recreation that they once had, are inclined to sit down and dwell on the past and to contemplate the future somewhat morbidly. The way to keep young while growing older is to read light or amusing literature and to associate with people who have cheerful natures.

As for the other items of advice, it would be well if all young or middle-aged people ate less than they do, slept a bit more and drank more water.

Watch your eating, drinking and sleeping and you will continue young until you are quite old.

CHIC SEMI-SPOITS TYPE

A swagger dress for semi-sports wear is sketched in army-blue canton crepe. It affects Princess silhouette through molded bodice, that buttons at left side, giving the figure length. The surplus, clinging also detracts from the width, by softening its line with ruffled collar with pleated ruffle. Long light fitting sleeves have turn-back pleated cuffs, to complete this smart lingerie note so important in mode.

It will prove a lovely addition to your new wardrobe, and the small cost will surprise you.

Style No. 729 comes in sizes 16, 18, 20 years, 36, 38, 40 and 42 inches bust.

Feather-weight tweed in tiny chevron or diagonal stripe is very attractive in beige and brown, mauve-red or plum shade.

Cozy red cashmere jersey or navy blue wool crepe is smart for classroom. Printed jersey also chic.

Black crepe mat is serviceable for general occasions.

Printed novelty rayon crepe, canton crepe in petunia shade, full silk crepe in burnt green and crepe Maroon in tobacco, brown fashionable.

Pattern price 25 cents, in stamps or coin (coin is preferred). Wrap coin carefully.

British Industries Fair

Canada To Be Well Represented At Fair To Be Held February 17th To 18th

The Deputy British Trade Commissioner announces that the sixteenth annual British Industries Fair will be held next year from February 17th to 28th, inclusive, at London and Birmingham, England. The two sections are complementary to one another, the whole forming the British Industries Fair.

The London section of the fair, which is organized by the British Government Department of Overseas Trade, will be held for the first time in its new home at Olympia. Canadian buyers who have visited the fair in the past will remember that for the last few years it has been held at the White City, in London. Owing to the growth of the fair it has been found that the White City buildings are not so suitable. It has therefore been decided to move the fair to Olympia, which is being especially enlarged for the purpose by the addition of a four-story building. The new building will not actually be completed until the 1931 fair, but two floors, in addition to the existing building, will be ready for occupation by February, next. By means of bridging the galleries and other construction work, there will be ready for the forthcoming fair a large two-story building which is believed to be the first of its kind and size in the United Kingdom. Up to the 15th of August last, 900 United Kingdom manufacturers had applied for space at Olympia. Although no definite number is available, it is believed that the applications for space at Birmingham have been made by approximately 1,000 firms.

The Empire Marketing Board, which is organized under the auspices of His Majesty's Government, will again stage a representative exhibit of food products of the Empire, the Dominion and Colonies, and also of the raw materials of the Empire. This exhibit will be given a prominent position on the ground floor of the existing main hall at Olympia. In addition to this there will be a separate exhibit by the Canadian Government, and it is anticipated there will be a representative Canadian Manufacturers' section.

Many Canadian buyers are expected to visit this great national fair. The most prominent British firms in all lines of manufacture will be exhibitors. The exhibits are grouped by trades, so that a buyer can go to any section in which he is interested and inspect it without wandering over the whole of the fair building to discover any particular article or firm.

Canadian buyers who visit the fair each year have on numerous occasions drawn attention to the time which they have saved by a visit to the fair. By such a visit they avoid the necessity of having to travel over the United Kingdom to purchase from the various manufacturers in whose goods they are interested. The schedule of exhibits in both the London and Birmingham sections covers practically every article of United Kingdom manufacture. Full information can be obtained from the British Trade Commissioner, 703, Royal Bank Building, Winnipeg, who will be glad to issue invitations on behalf of the British Government to business men who contemplate making the trip.

Research Work Necessary

The investigation of deposits of natural sodium sulphate (Glauber's salt), in Western Canada, by the Mines Branch, Department of Mines, has proven up tonnage of hydrous sodium and magnesium sulphates in excess of 100,000,000 tons. The nature of the salts is such that a large amount of research and experimental work in semi-commercial and commercial plants is necessary in order to devise proper methods of harvesting and drying the salts.

Control Of The Corn Borer

The European corn borer is being brought under control in Ontario, and the grain crop industry is being re-established in the province. The corn borer was first discovered in Canada in 1920. During 1924, 1925, and 1926, it had spread to such an extent that some corn fields had 400,000 borers to the acre. A very systematic control campaign, under the Department of Agriculture, has resulted in the re-establishment of the crop.

Alaska can produce 1,500,000 cords of pulpwood annually which can be converted into 1,000,000 tons of newsprint or more than one-fourth of the present yearly consumption of the United States.

"What I want to see," said the girl who didn't receive even honorable mention at the beauty contest, "is a group photograph of the judges' wives."

SCOTT'S EMULSION

Extra Rich Milk Is Used In Famous Bohemian Cake

Practical foreign recipes are always of interest to the housewife anxious to vary the menu. This molasses cake is decidedly different, and yet is easily made if you have extra rich milk on hand. Borden's St. Charles is particularly satisfactory, because it is twice as rich as ordinary milk, taking the place of cream in a cake of this kind. It never varies in quality; consequently you can count on uniform results in every kind of cooking.

Bohemian Molasses Cake

1/2 cup butter.
2 cups sugar.
1 cup molasses.
1/2 cup black coffee.
2 eggs.
1 teaspoon baking soda.
3/4 cup Borden's St. Charles Milk.
2 cups flour.
1 teaspoon ginger.
Cloves.
Cinnamon.
Allspice.
1/2 lb. raisins.

Cream together half a cup of butter, a cup of sugar, a cup of molasses, half a cup of black coffee, two yolks of eggs, and a teaspoon of baking soda, dissolved in one-half cup St. Charles Evaporated Milk. Then add two cups of flour, a teaspoon of ginger, a dash of cloves, cinnamon and allspice, also half a pound of raisins, if desired. Bake rather slowly.

When done and cool, cover with icing as follows: Beat the two whites, pour into them, beating constantly, syrup made by boiling a cup of sugar with a fourth of a cup of Borden's St. Charles Milk.

Collecting Christmas Seals

Within the last few years stamp collectors, not content with the increasing number of new postage stamps issues, have added another item, Christmas seals, to their lists. As time goes on the Christmas seals are said to be increasing rapidly in value, although age does not always determine their worth.

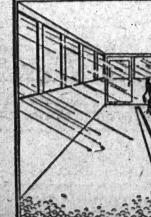

Saskatoon Power Plant

Construction work on the new power plant at Saskatoon, being built by the Provincial Government, at a cost of \$2,000,000, is going forward rapidly, and it is expected to be finished by November 15th. This new plant is said to be the most modern in the Prairie Provinces.

Polar Bear Favourite At Banff

One of the greatest favourites of visitors to Banff National Park is the polar bear in the Zoo. He was brought down as a tiny cub from near Herschel Island, in the Canadian Arctic, by an officer of the Royal Canadian Mounted Police.

MADE IN DENMARK

WINDOLITE stands for 100 per cent. sunlight. It makes light last strong windows for stable, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for nurseries, verandahs, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary saw, and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 1 1/2 lbs. A square yard of glass of ordinary thickness weighs about 135 to 150 lbs. The improved WINDOLITE requires no varnish. WINDOLITE is made in Denmark.

Price \$1.50 Per Square Yard, L.A.B., Toronto.

SUNDAY SCHOOL LESSON

NOVEMBER 3

RESPECT FOR RIGHTEOUS AUTHORITY

Golden Text: "Let every soul be in subjection to the higher powers."—Romans 13:1.

Lesson: Mark 12:13-17; Romans 13:1-14; 1 Peter 2:13-17.

Devotional Reading: Matthew 5:13-20.

Explanations and Comments

Jesus Teaches Respect For Law. Mark 12:13-17.—The Pharisees had resolved to compass the death of Jesus. How could they accomplish this? They decided to attempt to ensnare Him in His talk, so that they could report something He said as treason, and thus secure from the Roman Governor His death sentence. Craftily keeping themselves in the background, they sent certain Pharisees and Herodians to Him with that object in view. The Herodians were the court party, a small class which resented the Roman rule, but favored the kinship of the house of Herod and meant to be on good terms with the government at any cost. This alliance of Pharisees and Herodians, however, each other, shows how great was their common hatred of Jesus.

Teaching the Deputation began. "We know that Thou art true, and carest not for any one; for Thou regardest not the person of men. But of a truth teachest the way of God." By this preamble they meant that the questions they were about to propound was a dangerous one to answer, but they knew He was not afraid of consequences.

Then came the question His enemies wished Him to answer. "Is it lawful to give tribute unto Caesar or not? Shall we give, or shall we not give?" Caesar was the title given to all Roman emperors, the reigning emperor at this time was Tiberius. The tribute was the yearly tax levied on individuals by the Roman Government. Whatever answer Jesus might give would arouse hostility to Himself, the questioners thought: for if He said that it was lawful to give tribute, the people would condemn Him; and if He said that it was unlawful, He could be reported to Pilate as a rebel.

"Bring me a denarius, that I may see it," Jesus commanded. Strict Jews would not carry a denarius, for they thought the emperor's image upon it savored of idolatry, but one was easily obtainable from the money changers, as it was brought to Him. Jesus asked, "Whose is the image and superscription?" "Caesar's," was the answer. "Then answer me, Caesar, the things that are Caesar's?" And then Jesus quickly added, "And unto God the things that are God's." While discharging the duties imposed upon them by human conditions, men must never lose sight of the duties imposed upon them by their relationship to God.

And they marvelled greatly at Him, at the ease with which He gave an answer that was irrefragable and at the same time evaded the difficult position into which they had thought to put Him, and at the way in which He turned the question away from the realm of politics into that of religion.

Spider Has Eight Legs and from six to eight eyes.

A spider has eight legs and from six to eight eyes.

Magnesia Best for Your Indigestion

Most people who suffer, either occasionally or chronically, from gas, sourness, indigestion, have persistent continued disagreeable, distressing, painful stomach, tonic, medicines and artificial diet, and, instead, take a little Blaud's Magnesia after meals with their food. Those who use Blaud's Magnesia never desert the approach of meals because they know this wonderful anti-acid and food corrective, which can be obtained from any good drug store, will instantly neutralize stomach acidity, sweeten the stomach, prevent food fermentation, and make digestion easy. Try this plan yourself, but be certain to get Blaud's Magnesia especially prepared for stomach use.

Test Was Successful

Flying Boat Made Hour Flight With

D.O.-X, huge 12-engine flying boat, which was launched at Altenheim, Switzerland, last July, has made an amazing one-hour flight with a human load of 169, the first time in the history of aviation that so many persons have been carried into the air on any conveyance. The machine, five over Lake Constance, her motors working perfectly. The D.O.-X carried 169 passengers and a crew of 10.

The flying boat, which may be used for a trans-Atlantic crossing for the purpose of trying out her capacities, was built in the greatest secrecy. She was designed to carry 40 passengers normally, but has accommodation for 100 if necessary. Her 12 engines can develop a total of 6,000 horsepower and each engine can be treated individually without affecting its neighbors.

The D.O.-X measured 150 feet from tip to tail. Its wings are 10 feet thick and 160 feet from wing tip to wing tip. Six great turrets project from each wing and each turret is equipped with two engines of 500 horsepower. The turrets are manned by mechanics who walk along a passage on the inside of the wings from one turret to another.

When the D.O.-X was launched, last July, she carried 94 tons of weight and was able to get into the air with the greatest ease after a take-off run of only 500 yards. Other trials were similarly successful.

One of the features of the plane is her three decks, while another is that the machine can fly with only eight motors in use.

Dr. Dornier built the plane at Altenheim, on the Swiss side of the German-Swiss frontier, because of the limitations on German aircraft imposed by the treaty of Versailles.

A spider has eight legs and from six to eight eyes.

Ever Try This?

The greatest remedy for sore throats, whooping-cough, bronchitis, cough, cold, and all other ailments, is WINDOLITE. It is the only remedy of its kind, and it is the only remedy that is safe and effective.

KITCHENER TONSILITIS CO., Kitchener, Ont.

WINDOLITE The Improved Glass Substitute

MADE IN DENMARK

COMES WITH A MESSAGE OF HEALTH

THE SUN is the all-powerful life producer. Nature's universal disinfectant and germ destroyer, as well as abundant and potent. WINDOLITE is the sun's most important ally.

Medical research has definitely proved that the most effective against the sun's rays, are the Ultra-Violet rays, which possess the greatest power for the prevention and cure of disease and debility.

Science has further established that ordinary window glass does not allow the passage of Ultra-Violet rays, so that by using glass we are artificially excluding these vital health-giving rays. Therefore, the invention of WINDOLITE has completely satisfied the long-felt want. Exhaustive experiments have conclusively proved that it is a most effective substitute for glass, that it freely admits the Ultra-Violet rays, and that its use has a most beneficial effect on the growth and development of plants, and on the well-being of cattle, enabled for the first time to have healthy light instead of darkness in their stables.

Indeed, the discovery of WINDOLITE has during the last few years completely revolutionized gardening, given a new stimulus to poultry breeding, increasing the egg-laying capacity and fertility of chickens, has greatly improved the health of cattle and is now being used in domestic and household requirements.

Price \$1.50 Per Square Yard, L.A.B., Toronto.

Chew and Grow Thin

You know that certain foods furnish body energy without adding uncomfortable fat.

Sugar is one of these foods, supplying needed energy in concentrated form.

WIGLEY'S gives you sugar and flavor. These ingredients dissolve in your mouth.

What pleasanter way of taking sugar?

The Singing Fool

By HUBERT DAIL

Copyright, 1932, Warner Bros. Pictures, Inc.

SYNOPSIS

Al Stone, singing waiter at Blackie Joe's New York night club, wins fame as a composer of popular songs. He marries Molly Watson, a ballad singer, and makes her famous too. Molly and Al have a baby, Junior, whom Al adores. When Junior is about two years old Molly elopes with John Perry, Al's best friend, taking the baby. For a week there is no trace of them. Al, completely broken by the blow, visits his partner Billy Cline, at the Club Bombo, and declares he must sell out. He is through with Broadway. Just then Al learns from a newspaper article that Molly is at a New York hotel, preparing to sail for France that afternoon. He rushes to the phone.

CHAPTER XIX.

"No," said Molly of the maid, "you go on packing—I'll answer."

She picked up the receiver to hear Al's voice.

"Molly, is this you? Is it true you're sailing today?"

Molly's eyes grew cold as ice as a look of intense irritation crossed her face. She turned to Perry, putting her hand over the transmitter, and whispered, "It's Al."

Perry started, then Molly answered into the phone.

"Yes, it's true. I decided to sail today."

The full force of her cold determination was conveyed to Al in those words. But his voice came vibrating back against her ear.

"Please, Molly, you must let me see Junior before he goes. That's all I ask—you won't refuse that?"

Again Molly signaled quickly to Perry, pointing to Junior. The racketeer jumped, so Al was trying to spoil their game! Perry made a quick gesture of disapproval and Molly turned back to the phone.

"There's hardly time," she said. "We're leaving shortly."

Then it seemed to her that Al's voice hardened a little, too.

"The boat sails at six Molly—that gives you time. Remember you've taken Junior from me—and you know what he means to me! He's the only thing I have left to live for, I'll be with him only a few moments—you must grant me that!"

Al waited in an agony of suspense, while Molly did some quick thinking. She knew Al could make trouble for her if he wanted to do it. She didn't think he would, but if she refused this last request he might suddenly turn ugly toward her. She decided to conciliate him. Besides, for a vendor, she suddenly felt just a little sorry for him. After all, he had been an awfully good sport during the three years of their marriage, and he did adore Junior.

Just a tasteless dose of Phillips' Milk of Magnesia in water. That is an alkali, effective, yet harmless. It has been the standard antidote for 50 years among physicians everywhere. One spoonful will neutralize at once many times its volume in acid. It is the right way, the quick, pleasant and efficient way to kill the excess acid. The stomach becomes sweet, the pain de-

Then she became aware of Perry's agitated figure; he was pacing up and down in front of her, gestulating for her to refuse. But she turned to him and said in low firm tones:

"We must do this for him, John. It won't hurt us. And he's been so decent to me."

Perry made a reluctant gesture of acquiescence.

"Do as you like, but you can't afford to have him come here."

"No, of course not," she turned back to the phone. "I'll have Junior at the 96th Street entrance to the Park in half an hour."

As Al heard her crisp good-bys his face was illuminated with joy at the prospect of seeing his son. It would only be a few moments, but it was something—to both Junior close once more and hear his baby voice.

Al glanced at the watch, then remembered Billy Cline, who was waiting mutely nearby.

"She consents, Billy! I'm to see Junior in half an hour! Now I must hurry along."

Cline wrung his hands and Al picked up his hat and coat.

"We'll go over these accounts later," called Cline as Al hurried away, but Al gave only a hurried wave of the hand in agreement. His thoughts were concentrated on the meeting with his son.

Cline looked after him, shaking his head sadly. It seemed to him that the downfall and complete collapse of Al Stone was imminent all because of Molly.

"If I were in Al's place," thought Billy, "I'd certainly try to nab that woman at the boat and get the child back. But no, he won't do it. He thinks how it might put a stigma on the baby. And I think he loves Molly too much, even now, to do it."

The night club owner gave a sigh, sat down at his desk, and began to go over the accounts of the Club Bombo.

Al boarded a taxi and reached the 96th Street entrance ten minutes later. He still had a twenty minute wait, but he wanted to be on the spot ahead of time for this, the most important appointment of his life.

He paced nervously up and down, peering at every limousine that passed. Then, as so often happens when there is so much at stake, imaginative and imaginary fears began to possess him.

What if Molly had led to him, what if she were striding him along and even now was hurrying with Junior toward the boat? But just when this fear had become so intense that he thought he couldn't endure it a moment longer, Molly's blue Rolls-Royce approached, came to a stop and the door swung open.

Molly wasn't in it, a strange nursemaid stepped out, leading junior by the hand.

Al rushed forward to clasp his boy in his arms.

As Junior saw Al approaching his little arms opened wide. Then he felt himself caught and lifted high, with his face against his daddy's cheek. Why this was just like home, when his daddy came in at dinner time, to rush into the nursery first thing and embrace him. Yet it was different. In a way, and the sensitive child felt it. His daddy was silent for a long moment as he pressed Junior close to him.

"The little boy thought he was crying," said Molly. "A awful much."

"But me! Al held him so arm's length and whispered, with radiant face:

"It's wonderful to see you again. Did you miss daddy, Junior?"

Molly nodded. "A awful much. I asked nursemaid were you was. I asked her all the time."

Again the quick clasping of the little warm body in his heavy blue overcoat. Then Al carried Junior toward one of the benches that stood by the park entrance.

"Let's sit down here, Junior. We can be all alone."

Junior sat on Al's lap, looking up into his face. During these few precious moments Al wanted his child all his own.

to himself, out of earshot of the nursemaid. There she was pacing up and down beside the car, keeping a sharp eye on Junior and his father.

"She's been told to watch me—told I might steal him," thought Al.

How pink Junior's cheeks were and how lovely his curls, escaping in profusion from under his funny little Boston cap. He sat with his tiny, sturdy legs, in leather leggings, spread far apart, studying his father's expression, as if seeking the answer to some question that was bothering his baby mind. Yes, there was something about Junior, a sudden gravity, that convinced Al he knew vaguely that all was not well with the Stone family. It was just a feeling with Junior and he had no words that really expressed it, but he said soberly:

"Daddy, I've missed you lots."

"Have you, Junior?"

"Yes, I have. I wish you was going wiv mudder and me."

Al turned his face away quickly, as if he were studying intently something far down the street. He didn't want Junior to see his expression of extreme unhappiness, and he himself he could not speak. But as he gazed at the child he said:

"Do you, Junior? So do I. You can't know how much daddy longs to go with you."

"Why can't you go, then?"

Again the sudden starting down the street and the quick return of daddy's warm, loving eyes.

"Because, Junior—well, it's this way, you wouldn't understand. You'll know some day."

But you never forget daddy, will you? You'll never forget that daddy loves you every moment and thinks of you and sings to you."

"Never," said Junior, with the certitude of a grown person and a solemn wag of his head. Then he asked:

"Do you feel bad, daddy?"

Al stiffened his quivering lip and managed to summon a smile.

(To Be Continued.)

Many children die from the assaults of worms, and the first care of mothers should be to see that their infants are free from these pests. A vermifuge that can be depended on is Miller's Worm Powders. They will not only expel worms from the system, but act as a health-giving medicine and a remedy for many of the ailments of the best infants, enfeebling them and endangering their lives.

Makes Study Of Indian Languages

finds Indians Of Northern Canada Have Speech Similar To Navages Of Arizona.

"Believe it or not," but there is a definite language connection between the Hare Indians of Chipewyan and the Hare of Hope, and the Navajo Indians of Arizona.

At least this is the considered opinion of Dr. F. K. L., graduate of the University of Chicago, and an expert in the gentle art of comparative philology—the latter subject being the study of various languages in reference to one another.

Incidentally, there is a touch of the international in the fact that Dr. L., of Chinese parentage, should be studying Indian languages in Canada for an American university, but there is nothing particularly remarkable in this, since the Chinese have for ages been considered among the best students of languages.

Dr. L., this year, has completed three years' study of the language of the Hare Indians of the north, including an intensive study of the various dialects. All last summer he camped with the tribes in and around Fort Chipewyan and Fort Good Hope, and though he may be keenly interested in the Hare Indian language, he hasn't seen anything to rouse his admiration of the Hare Indian as such.

Advocates Washable Suits

Suits which can be taken off and washed when dirty are advocated for men by Professor Leonard Hill.

"It would be a valuable reform if men took to washable outer garments," he said in a presidential address to the conference of the Sanitary Inspectors' Association. "Woman has reduced her clothing—all washable—to a weight of two or three pounds, while man continues to over-burden himself with three or four times that weight."

Restoring the Dead To Life

Australian Scientist Exhibits Remarkable Device At Medical Congress

An Australian scientist has exhibited a device before the Sydney Medical Congress which has restored persons apparently dead. Curiously enough, it is a needle which stimulates the heart muscles with electricity. Whether that will help lead to the solution of life in terms of electricity remains to be seen.

Death, science now teaches us, is an accident to life. Body cells, it has been shown, can be kept alive indefinitely. Again the electricity parallel, for evidently death comes as a short circuit from the so-far intangible conductors in the human body.

But in a few years they may not be intangible. Radio researchers have tried to detect the "cadaver," the action of nerves can be registered.

With that approach via electricity, it is only a matter of time till their energy can be computed in mathematical terms.

Thence, if results are indicated, the research continues into the dispenser of this energy which means life; into the "power house" relations of the digestive functions, the metabolic processes, the heart, brain, glands and spinal nerve bases. Specimens in these various functions have made amazing discoveries. To correlate these discoveries may lead to something more amazing.

Life, we used to be taught in God's secret. But God has no secrets. Our whole conception of Deity is in terms of revelation. Man already knows the spark of life has some relation to the ceaseless, tremendous electronic energy of ether. He may not attain immortality. But he has an excellent chance of broadening into a more glorious realization of life already given him.—Vancouver Sun.

Blairmore, Alta., Thur., Oct. 31, 1929

FROM CREDIT TO CASH

They used to tell a story about an old man of questionable sobriety, who could regularly be found sleeping on the hotel verandah summer afternoons in the days of the old open bars. One particularly hot day in July, the flies were very bad. Time after time he half awakened and brushed them off his face. Finally an enterprising hornet settled on the old man's nose and gave him a vicious jab with its stinger. The old man became quite indignantly aroused, and, brushing his hands wildly

across his face, exclaimed with dignified authority: "Now, you'll all have to get off!"

This story pretty well illustrates why the business houses in town and pretty well all over the country are forced out of the credit business. The vagrant few have stolen away with the profits, and new organizations coming in with this element eliminated from business policies are able to undercut and entice away the cash trade. It may have a tendency to curtail purchases, but it will put more careful management into home financing.

UNEMPLOYMENT SITUATION IN THE CROWS' NEST PASS

The unemployment situation in the Crows' Nest Pass coal fields is one of the most serious facing this Province today. It should have the concerted attention of Federal and Provincial governments in an effort to arrive at a solution.

It appears that, as a result of economies in the use of fuel, the substitution of other fuels and the development of the steam coal mines there to

a large capacity, there is now out four months' work in the year for the miners. Four months' work in eight months of starvation is not conducive to property nor contentment among the workers and their families. Something will have to be done. In the course of time, if we leave matters as they are, the situation will right itself, because enough miners will leave the district to allow those remaining to secure fairly steady employment. That is not, however, a humane way of looking at the situation. Either we must water the market for Crows' Nest Pass steam coal or we must reduce the number of miners. That is the situation in a nutshell. The possibility of widening the market has been circumscribed from every angle, but the market appears to be limited. Gas, electricity, oil and other sources of energy are supplanting coal in many areas and many fields of industry. It may be that the use of coal in the manufacture of electricity near the plant, as is now being done at the Siskinok plant of the East Kootenay Power Company, may be a partial solution. It may also be that the reduction of coal and the manufacture of by-products can be carried much further in this Province than we have ever attempted so far. But these possibilities are in the future. For the present we must face the situation as it is.

Some governmental agency should go into the Crows' Nest Pass, study actual conditions and make recommendations for alleviating the present unsatisfactory employment condition. It may be that the railway companies, which are the chief users of steam coal, can spread their wants over the whole year, instead of storing coal for four months in the summer and then taking none for the rest of the year. That would flatten out the employment peak.

It would probably be found then that there are too many miners dependent upon the mines of that district for their daily bread. If so we should know this fact. Great Britain is facing just such a situation. It is a difficult one to solve but one which must be dealt with if economic conditions in an important industry are to be bettered.—Lebridge Herald.

An exchange has the following notice: "All the Liberal women are invited to attend the organization meeting on the front page of this paper."

Dancing is now referred to as hop-tin'-am.

BLAIRMORE UNITED CHURCH
Rev. J. W. Smith, B.D., Pastor

Serve the church that the church may serve you.

Services for Sunday, November 3rd, the Pastor in charge—

SENIOR SCHOOL at 11 a.m.

JUNIOR SCHOOL at 2 p.m.

PUBLIC WORSHIP at 7:30 p.m.

The November book sermon, subject: "Sins of the Spirit." This subject is the theme of A. S. M. Hutchinson's new book, "The Uncertain Trumpet." Mr. Hutchinson, it will be remembered, is the author of "If Winter Comes."

HILLCREST—Public worship at 3 p.m.

Bert Huffman, father of Milo B. Huffman, formerly of The Enterprise staff, who farms at Inverlake, Alberta, was this year completely halved out, losing every sheaf of wheat. Mr. Huffman is an optimist of the first water and in commenting on his great loss says: "This is not the crushing blow that it might have been. I am still alive and well, able to look forward to the future with hope and keen ambition. My life is filled with pleasant memories and inexpressible delights. This miserable storm which has passed over my pathway is but one of the desolate halting places on the long caravan route of life. I shall go forward from it in gladness and hope and inextinguishable ambition. The soul within me was not halved out! I have still within me the heart and eagerness and the unconquerable will of a boy. Life's best pages are yet to be written. The most glorious hours are before me, hours teeming with hope and joy and hours filled with delights of friendship and companionship and tinged with happiness and filled with promise and fruition for the future. The eager heart within me was not and shall not be halved out."

George Bond is in Calgary for a few days prior to leaving with his team for Edmonton and other points before taking up the season's big league work with the Oakland Seals.

Mrs. Arthur Shearer, of Kimberley, was a visitor here during the week with her daughter Mrs. Gale. Mrs. Shearer was accompanied by her son George, who is working at Canal Flats.

Anywhere from eight inches to two feet of snow covered this district during Sunday and Monday and at present shows little signs of disappearing. Farmers are rejoicing over its advent and look forward to good results from wheat sown this fall.

The marriage of Mr. Ernest Seward Tabor to Miss Mary Elizabeth Bamforth, both of Hillcrest, was solemnized by Rev. J. W. Smith, B.D., at the United church manse, Blairmore, on Monday. Among those present were the sister of the bride and Mr. George Bamforth, of Hillcrest, and Mr. Aaron Blackley, of Fernie.

Not wishing to hit at the Alberta Liquor Control Board at all, but never was liquor of ranker quality peddled by moonshiners than that purchased by a local man from the vendor store here on Tuesday of this week, purported to be "Governor General Rum," and which was in quality little above the average bilge water. If such slops had been purchased from the biggest manufacturer or the biggest store on earth it could be returned and you'd get your money back, but when the government gets your dollar you have to be satisfied with the goods obtained for it, even if rank.

Talkies were introduced at the Palace theatre at Coleman last week end and proved quite successful.

Ontario was swept by the Conservatives in the elections yesterday, gaining at least 89 out of 112 seats.

STOCK EXCHANGE STAMPEDE WORST PANIC SINCE 1914

New York.—The remarkable era of avid public speculation in stocks which has swept over the country during the past five years, came to a climax in the most terrifying stampede of selling ever experienced on the New York stock exchange and other leading securities markets.

Not since the war panic which resulted in closing the exchange for 17 weeks in 1914, has Wall Street seen such a dark and trying day, and never in financial history have securities markets been thrown into such a tumult. It appeared for a time that the stock markets would be unable to face the situation, and that trading would have to be suspended, but the leading exchanges saw the ordeal through, although a few floor traders collapsed and had to be aided from the trading rooms.

The situation became so grave that a hurried meeting of leading bankers was called at the office of J. P. Morgan and Company, and a reassuring statement issued from the conference by Thomas W. Lamont, one of the Morgan partners, finally checked the sickening drop of stock prices and saved the market from a complete impasse.

Scores of important stocks tumbled from \$15 to \$70 a share, paper values vanishing at the rate of tens of millions of dollars, when the bankers' statement prompted large operators who were reaping millions in selling the market short, to cover their commitments, and prices of many issues rebounded.

The stocks of six leading corporations at their low levels of the day on the New York stock exchange showed a loss in total market values of nearly \$1,000,000,000. The market value of the total outstanding common stock of General Motors showed a loss of approximately \$358,000,000; that of American Telephone and Telegraph Company \$273,000,000; Radio Corporation of America \$150,000,000; U. S. Steel \$78,000,000; Standard Oil of New Jersey \$68,000,000; General Electric \$64,000,000.

Total sales on the stock exchange reached the amazing figure of 12,946,680 shares, surpassing by more than 50 per cent. the previous record of 8,246,740 reached in March 28. The ticker quotations service felt hours behind transactions and traders who were unable to get quotations from the floor proceeded blindly, save at intervals when a few orders were sent out through the bond market ticker.

Closing prices presented a picture of havoc among quoted values, hundreds of shares selling at or near low levels for the year, and from \$20 to more than \$100 below the record prices reached in recent months. Nevertheless the price level at the time of the closing gong was found to be substantially above the bottom levels of the day, approximately half the losses of the terrific early hours of the day having been regained.

Attempts Life Of Italian Crown Prince

Assassin Said He Intended To Fire Into Air

Brussels, Belgium.—A shot was fired at Crown Prince Umberto, of Italy, as he laid a wreath on the tomb of Belgium's unknown soldier. The prince, uninjured, ignored the incident, but police arrested the assassin immediately. Injured, the crowd stormed the police station, demanding that the man be lynched.

The prince's assassin told the police he is an Italian named Jacopo Drosas, and was born in 1904. He said he had intended to fire into the air as a mark of protest. He arrived from France and was in possession of identification papers from that country.

The attempt was attributed in Rome, to resentment of anti-Fascists in Brussels against condemnation and execution recently, at Pola, of Vladimir Gortan, a Yugoslav "terrorist" who fired on a line of voters last election day.

Will Release Douchobors
Ottawa.—Thirty Douchobors now in jail in Saskatchewan, are to be released on ticket of leave. Hon. Lucien Cauchon, solicitor-general, announced on request of Hon. M. A. MacPherson, attorney-general of Saskatchewan.

The Chinese Free Masons of the World in their convention at San Francisco pledged \$100,000 for a peace temple in Shanghai.

W. N. U. 1869

Urges Free Speech

Best Way To Deal With Communists Says Miss McPhail

Toronto, Ont.—Miss Agnes McPhail, Canada's only woman member of parliament, in an interview referring to trouble between the local police and Communists, said: "My opinion of the way to deal with the matter is to let the Communists have free speech. In the words of some one who spoke about Hyde Park in England, Queen's Park might be a real safety valve for Toronto exuberant Communists. The police have been making themselves the laughing stock of all thinking people. It is the silliest business I have heard for some time."

Renews Arts Competition

Eight Prizes Are Again Offered By Lord Willington

Montreal.—Lord Willington, Governor-General of Canada, has informed Sir Arthur Currie, principal of McGill University, by letter of the renewal of the Willington arts competition, inaugurated last year. Eight prizes in all are offered with a view of furthering and encouraging cultivation of art and literature. Four prizes of \$100 each are offered for competition in music, two in literature of \$100 each, one in painting of \$200, and one prize in sculpture of \$200.

Receive Severe Sentence

Chinese Dealers, In Narcotics, Given Long Jail Terms

Vancouver, B.C.—Trafficickers in narcotics received severe sentences at the close of the fall assizes, when Mr. Justice D. A. MacDonald sentenced Henry Chan, 25-year-old Chinese woman, convicted of a charge of selling opium, was sentenced to seven years in the penitentiary, a fine of \$1,000 and 10 lashes. Chow was convicted of having cocaine and morphine in his possession.

Nip Gar, alias Jang Shie, 55-year-old Chinese woman, convicted of a charge of selling opium, was sentenced to seven years imprisonment and fined \$1,000.

Will Investigate Tariff

Advisory Board To Discuss Applying To Cotton Goods

Ottawa.—The reference from the Minister of Finance to the tariff advisory board to investigate the fifty per cent. British content provision in the preferential tariff applied on cotton goods from Britain coming to Ottawa by Count Daino Roger Di Vilanova, councillor and senior assistant at the Italian embassy in London, England.

The despatches forecasting that Italy would ultimately follow the example of the United States, France and Japan by appointing a minister to the Dominion has caused considerable interest in government circles. Some time ago there was a similar report with respect to Germany. The Department of External Affairs would make no official comment with regard to either report. However, there is a general impression that Canada's diplomatic services abroad will be extended. Germany and Italy appear as likely countries with which Canada would next exchange ministers.

Maigue Ferrante, in an interview, said he knew nothing of reports emanating from London that his government would appoint a minister to Canada. "It is quite possible," he is quoted as saying, "but it may not be for some time yet."

Will Be Guest Of Honor

North Battleford, Sask.—Premier J. T. M. Anderson will be the guest of honor at the annual rally sponsored by the Board of Trade, which will be held here Tuesday, November 12. More than 2,000 people attended the function last year when farmers from all parts of the district came in for the day's entertainment.

Relief Fund For Miners

London, England.—The fund for relief of distress among the families of unemployed coal miners has been reopened for the coming winter. Various grants have already been allocated and altogether about \$2,500,000 will be spent. The distribution of relief will take the form entirely of clothing.

Sailing November Thirtieth

Tokio.—The Japanese delegation to the London naval conference in late January, will sail from here for Seattle on November 30, proceeding from that city to Washington for a visit with President Hoover and Secretary Stimson before going to London.

Munich, Germany, was founded by the monks.

To Take Over Branch Lines

Statement Made That C.N.R. Will Operate Cranberry To Sherri-Gordon Branch

Winnipeg.—Announcement is made that the branch line from Cranberry to the Sherri-Gordon mine at Cold Lake will be taken over by the Canadian National Railways at the end of October.

It is expected that when the branch is taken over there will be a tri-weekly passenger service to and from The Pas and a daily freight service.

H. MacLean, president of the Dominion Construction Company, stated that work on the branch had been completed well ahead of schedule. Local mining men believe that the taking over of the line by the C.N.R. will lend great impetus to mining in Northern Manitoba. Work on many promising prospects have been held up, they state, because of the exorbitant cost of taking machinery into the Cold Lake mining area by winter trails.

Believes Draft Satisfactory

Manitoba Cabinet Discusses Agreement For Return Of Resources

Winnipeg.—Tentative draft agreement for transfer of natural resources will probably be satisfactory to Manitoba, believes Hon. Charles Stewart, Minister of the Interior. The Dominion minister conferred with members of the Manitoba cabinet on the first occasion for informal discussion of the draft.

With certain modifications suggested at the conference, the draft was considered to meet with the approval of the government. Every member of the cabinet was present, with the exception of Premier John Bracken, who is absent in the Old Country. Application of the Manitoba Power Company for extended pulpwood limits is to be considered at a conference to be held on Mr. Stewart's return from the west.

ITALIAN MINISTER TO CANADA MAY BE APPOINTED

Ottawa.—The appointment of an Italian minister to Canada was forecast in cable despatches received here, that Agostino Ferrante Di Rufano, Italian consul-general here, would soon be transferred to Philadelphia and that he will be succeeded in Ottawa by Count Daino Roger Di Vilanova, councillor and senior assistant at the Italian embassy in London, England.

The despatches forecasting that Italy would ultimately follow the example of the United States, France and Japan by appointing a minister to the Dominion has caused considerable interest in government circles. Some time ago there was a similar report with respect to Germany. The Department of External Affairs would make no official comment with regard to either report. However, there is a general impression that Canada's diplomatic services abroad will be extended. Germany and Italy appear as likely countries with which Canada would next exchange ministers.

Maigue Ferrante, in an interview, said he knew nothing of reports emanating from London that his government would appoint a minister to Canada. "It is quite possible," he is quoted as saying, "but it may not be for some time yet."

GEOLOGIST RETURNS FROM NORTH

Fears for the safety of Geoffrey Gilbert, above, geologist with the Dominion Explorers, have been allayed by the news of his arrival at Fort Simpson. He was to have been picked up by the MacAlpine party and for a time it was not known whether he had been forced down with them or was awaiting their arrival. "Pete" Dickies brought him and three others out during an unsuccessful night to locate the MacAlpine party.

Fears for the safety of Geoffrey Gilbert, above, geologist with the Dominion Explorers, have been allayed by the news of his arrival at Fort Simpson. He was to have been picked up by the MacAlpine party and for a time it was not known whether he had been forced down with them or was awaiting their arrival. "Pete" Dickies brought him and three others out during an unsuccessful night to locate the MacAlpine party.

Spirit Of The West

Nothing To Worry About, Newspaperman Tells Easterners

Toronto.—"The spirit of the west is steady and hopeful," said T. S. Miller, of the Moose Jaw Times, here for the meeting of the directors of the Canadian Press. Mr. Miller is a well-known western newspaper man and was a charter member of the Western Associated Press when it started in Winnipeg, 22 years ago. Also he farms himself on a considerable scale, being interested in three sections, nearly 2,000 acres, under cultivation in Saskatchewan.

"This is not a bad economic crop for the west," he said, "with 250,000,000 bushels of high-grade wheat. There was a great saving in operating cost, because we did not import a single harrow, plow, or other implement of the crop with their own labor, the combine harvester now widely in use being in part responsible. Of course, there are cases of individual hardship, some farmers not even saving seed, but these are being taken care of by municipal and farmers' organizations, and it is unlikely it will be necessary to ask Ottawa for financial help as was the case some years ago."

"We expect to get higher prices, and the sentiment of the west is behind the Wheat Pool in refusing to sell at bargain rates, proving in the fact that farmers not in the pool are also holding wheat for a rising market."

"Looking to next year, there were good rains east of Regina's fortnight ago, but not in the Moose Jaw district. The astonishing thing this season has been the remarkable showing on summer-fallow seeded to spring wheat, where not a drop of rain fell throughout the growing season, and yet a six to 12-bushel crop was reaped. Our prairie soil is not like your soil down here, because when we get rain it goes into the ground and doesn't wash away. It is a remarkably good season, and we may get good rains yet, but if we do not there will be snow and frost seepage in the spring and good rains in May and June will put the crop on its feet. But it is too early to talk about the 1930 crop. Tell people in the east there is nothing to worry about in the prairie west."

Attentive observers of the western storage situation regarded these omens with relief. They looked back on a car-ratting move during the first half of October by both the Canadian National and the Canadian Pacific railways; they remembered the fear a month and more ago that Fort Arthur and Fort William elevators might soon be filled to overflowing and that the yards would be crammed with loaded grain cars.

Just 60,000 bushels of wheat remains to be hauled to the country elevators by prairie farmers, it was estimated. And aggregate country storage on October 23—after a drop for the second successive day following continued rise for weeks—stood at 86,640,000 bushels. The bins still have capacity for more than 72,000,000 bushels, allowing range for 13,000,000 bushels of undelivered grain in addition.

With grain deliveries falling off at present, it is considered only a matter of time before movement to the lake-head will show a corresponding drop. Handlers of the grain are desirous of having no more grain at hand in terminal elevators after the lake shipping season closes in November than is necessary to accommodate their winter needs. It is more economical storage in local elevators to the greatest possible extent.

Plans For Convention

Dominion Breeders' Association To Meet In Regina Next Month

Regina.—Preliminary arrangements for the convention of the Dominion Breeders' Association, to be held in Regina, on March 24 to 28, 1930, were given attention by the Saskatchewan Livestock Board at a recent meeting.

A committee to take charge of these plans was appointed. It consists of C. M. Learmonth, J. G. Robertson, D. T. Elderkin, and R. A. Wright.

These Canadian Breeders' Associations meet in Toronto customarily, having met in the west previously only once. That was in Calgary a number of years ago. They are meeting in Regina, in 1930, on the invitation of the Saskatchewan Livestock Breeders and the Regina Board of Trade.

New Claimant For Earldom

Third Man Is Disputing Claim Of Alberta Rancher

London, England.—The dispute over the right to the earldom of Egmont, and the extensive estates here, Kingwood, in Hampshire, has been complicated by the appearance of a third claimant, namely, R. Power, retired captain of Haydock, Lancashire. He claims to be a descendant of Hon. Ralph Tipton Percival, a brother of the fifth earl, Frederick Percival, of Priddy, Alberta, is at present disputing the earldom with James William Percival, 66-year-old baker of North London. The Alberta man was believed to be the heir presumptive during the late earl's life and on the death of the earl came to England, and for a brief time occupied the estate.

Freight Rates Hearing

Board Of Railway Commissioners To Consider Cases East And West

Ottawa.—Two important hearings before the Board of Railway Commissioners will likely take place this fall, when the request of the maritimes for lower grain rates over the transcontinental railway and that of Alberta in connection with coal rates will be presented.

No dates have yet been fixed for these hearings, and as yet no formal application has been received from the maritime provinces. It is expected, however, that these will be set within the next day or so.

Have No Political Rights

Mexico City.—The Department of Interior has ruled women have no political rights in Mexico, and hence cannot vote in the presidential election November 17. Its ruling was in answer to a query of women's clubs in the state of Coahuila.

GRAIN STORAGE CRISIS BELIEVED TO BE NOW OVER

Winnipeg.—The grain-storage crisis has passed. Yawning bins at country points contain more than enough storage space to accommodate the unmarketed portion of the 1929 crop. General elevators are falling off and are being balanced by the movement to the lake head, and Lake head bins are being kept level by grain boats steaming steadily eastward.

Attentive observers of the western storage situation regarded these omens with relief. They looked back on a car-ratting move during the first half of October by both the Canadian National and the Canadian Pacific railways; they remembered the fear a month and more ago that Fort Arthur and Fort William elevators might soon be filled to overflowing and that the yards would be crammed with loaded grain cars.

Just 60,000 bushels of wheat remains to be hauled to the country elevators by prairie farmers, it was estimated. And aggregate country storage on October 23—after a drop for the second successive day following continued rise for weeks—stood at 86,640,000 bushels. The bins still have capacity for more than 72,000,000 bushels, allowing range for 13,000,000 bushels of undelivered grain in addition.

With grain deliveries falling off at present, it is considered only a matter of time before movement to the lake-head will show a corresponding drop. Handlers of the grain are desirous of having no more grain at hand in terminal elevators after the lake shipping season closes in November than is necessary to accommodate their winter needs. It is more economical storage in local elevators to the greatest possible extent.

MANITOBA MAY SOON CONTROL OWN RESOURCES

Ottawa.—Rapid progress has been made in regard to the natural resources agreement between the Dominion and the province of Manitoba in the last few days.

It was learned from cabinet sources that the Dominion has appointed O. M. Biggar, K.C., formerly the chief electoral officer of the Dominion, to act with A. B. Hudson, K.C., representing the province of Manitoba, in the actual drafting of the agreement which will be submitted to parliament and to the provincial legislature at the next session of these bodies.

Prior to the appointment of these two lawyers to act as a committee, it had been stated that the proposal agreement already was in draft form. It is now stated that this was not the case. The officials of the interior department, apparently had drawn up a rough outline of an agreement, but had not attempted to cast it in final form. Mr. Hudson and Mr. Biggar, it is understood, had several lengthy conferences in Ottawa last week and this week, and while neither of them would discuss the matter, there is good ground for the belief that very rapid progress was made, and that except for a few points which must be submitted to the two governments for their approval, the agreement is rapidly taking on its final form.

Just what these special points involve is rather difficult to discover. Cabinet ministers, in touch with progress being made intimately recently, that there was a drop in the water powers would be returned to Manitoba, and if large areas of timber ought not to be retained by Ottawa. It was not suggested that the Dominion would insist in these matters, or attempt anyway to bring pressure upon the government of Manitoba. The point was, rather, that Manitoba might voluntarily agree to these resources being controlled in the future from the capital.

Succeeds Dean Ling

Saskatoon.—Dr. R. A. Wilson, head of the English Department of the University of Saskatchewan, has been appointed to the educational council of the province, succeeding Dean G. H. Ling, also of the University. Premier J. T. M. Anderson announced. The appointment is effective immediately.

Indian Wins Flowing Match

Ottawa.—A 17-year-old Indian boy showed modern agriculturalists how to do their stuff recently, and won first prize in the international plowing contest against 989 opponents. George Barlow was the winner. He owns a farm, which he bought himself at Middleport.

Will Meet As Friends

London, England.—Two war opponents in German East Africa, General von Lettow-Vorbeck and General Smuts, will meet at a dinner of British and South African soldiers, sailors and nurses here on December 2. Smuts will propose a toast to his former opponent.

Kite Flying Record

Lancaster, Pa.—The world's record for sustained kite flying was broken at New Holland by John Garman and Treuman Diem, both 15, whose kite, the "Spirit of New Holland," had remained in the air 52 hours and 20 minutes.

Sails To New Fields

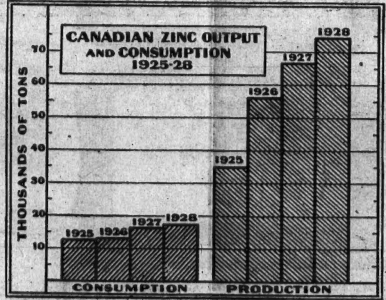

Gall-Curl After A Big Season To Tour the Orient

Regina.—Madame Gall-Curl will sing at The Armouries, Regina, on Wednesday, November 6th, before she sails to a new field, almost the final one on the globe that her rare voice and personality have not already charmed. The diva's tour of the cities of Japan and China, with concerts also at Manila, in the Philippines, starts in February and ends in early summer.

For a number of years letters have been coming to Messrs. Evans and Sailer, managers of Madame Gall-Curl, insisting that the diva be spared by America long enough to tour the Orient. It was exactly the same, this long and positive insistence, before the diva made her tour of the British Isles, and later upon a still more extended singing journey to Australia and New Zealand.

This season again starting in early October, the famous singer is booked solidly to concert in November and December. Again in January and the opening of February she is engaged for her usual opera appearances at the Metropolitan. Then comes the Gall-Curl tour in lands on which the sun rises first.

ZINC PRODUCTION IN CANADA

Zinc is one of the metals of which Canada now produces a heavy exportable surplus, the last few years having witnessed a rapid increase in the spread between domestic production and consumption. According to figures published by the American Bureau of Metal Statistics, the Canadian output of zinc last year amounted to about four times the domestic consumption. British Columbia accounts for much the greater part, with Quebec as the other main contributor. Incidentally, the growth of production has converted zinc from a minor to a highly important item in Canadian mineral production, the value of the output last year exceeding ten million dollars.

How To Keep Young

Eat Less, Sleep More, Drink Water, and Laugh.

An aged New York man, who has led a busy life, and a good one to boot, offered the following recipe on how to live long:

"When you get old, eat half as much, sleep twice as much, drink three times as much water, and laugh four times as much."

The advice is no doubt good. It recognizes the psychological factor as well as the material. Laughter is one of the most valuable emotions of humanity. It has a physical effect on the body by stimulating certain abdominal muscles, and it has a mental reaction which is a tonic to one's outlook on life.

People growing old, who have not the physical capacity for enjoyment and recreation that they once had, are inclined to sit down and dwell on the past and to contemplate the future somewhat morbidly. The way to keep young while growing old is in a red light or a sunny literature and to associate with people who have cheerful natures.

As for the other items of advice, it would be well if all young or middle-aged people ate less than they do, slept a bit more and drank more water.

Watch your eating, drinking and sleeping and you will continue young until you are quite old.

Winnipeg Newspaper Union

729

CHIC SEMI-SPORTS TYPE

A swaggar dress for semi-sports wear is sketched in army-blue cotton crepe. It affects a blouse with buttoned bodice, that buttons at left side, giving the figure length. The surplus drape also detracts from the width, by softening its line with rever collar with pleated ruffle. Long tight fitting sleeves have turn-back pleated cuffs, to complete this smart lingerie note so important in mode.

It will prove a lovely addition to your new wardrobe, and the small cost will surprise you.

Style No. 729 comes in sizes 16, 18, 20 years, 30, 35, 40 and 42 inches bust.

Feather-weight tweed in tiny check or diagonal stripe is very attractive in beige and brown, mauve and plum shade.

Goya red kasimir jersey or navy blue wool crepe is smart for classroom. Printed jersey also chic.

Black crepe satin is serviceable for general occasions.

Printed novelty rayon crepe, cotton crepe in petunia shade, falls silk crepe in hunter's green and crepe Maroon in tobacco brown fashionable.

Pattern price 25 cents, in stamps or coin (coin is preferred). Wrap coin carefully.

What I want to see," said the girl who didn't receive even honorable mention at the beauty contest. "Is a group photograph of the judges' wives."

British Industries Fair

Canada To Be Well Represented At Fair To Be Held February 17th To 28th

The Deputy British Trade Commissioner announces that the sixteenth annual British Industries Fair will be held next year from February 17th to 28th, inclusive, at London and Birmingham, England. The two sections are complementary to one another; the whole forming the British Industries Fair.

The Loan section of the fair, which is organized by the British Government Department of Overseas Trade, will be held for the first time in its new home at Olympia. Canadian buyers who have visited the fair in the past will remember that for the last few years it has been held at the White City, in London. Owing to the growth of the fair it has been found that the White City buildings are not suitable. It has therefore been decided to move the fair to Olympia, which is being especially enlarged for the purpose. The new building will not actually be completed until the 1931 fair, but two floors, in addition to the existing building, will be ready for occupation by February next. By means of bridging the galleries and other reconstruction work, there will be ready for the forthcoming fair a large two-story building which is believed to be the first of its kind and size in the United Kingdom. Up to the 12th of August last, 800 United Kingdom manufacturers had applied for space at Olympia. Although no definite number is available, it is believed that the applications for space at Birmingham have been made by approximately 500 firms.

The Empire Marketing Board, which is organized under the auspices of His Majesty's Government, will again stage a representative exhibit of food products of the Mother Country, the Dominion and Colonies, and also of the raw materials of the Empire. This exhibit will be given a prominent position on the ground floor of the existing main hall at Olympia. In addition to this there will be a separate exhibit by the Canadian Government, and it is anticipated there will be a representative Canadian Manufacturers' section.

Many Canadian buyers are expected to visit this great national fair. The most prominent British firms in all lines of manufacture will be exhibitors. These exhibits are grouped by trades, so that a buyer can go to any section in which he is interested and inspect it without wandering over the whole of the fair building to discover any particular article of firm.

Canadian buyers who visit the fair each year have on numerous occasions drawn attention to the time which they have saved by a visit to the fair. By such a visit they avoid the necessity of having to travel over the United Kingdom to purchase from the various manufacturers in whose goods they are interested. The schedule of exhibits in both the London and Birmingham sections covers practically every article of United Kingdom manufacture. Full information can be obtained from the British Trade Commissioner, 703, Royal Bank Building, Winnipeg, who will be glad to issue invitations on behalf of the British Government to business men who contemplate making the trip.

Research Work Necessary

The investigation of deposits of natural sodium sulphate (Glauber's salt), in Western Canada, by the Mines Branch, Department of Mines, has proved up tonnage of hydrous sodium and magnesium sulphates in excess of 100,000,000 tons. The nature of the salts is such that a large amount of research and experimental work in semi-commercial and commercial plants is necessary in order to devise proper methods of harvesting and drying the salts.

Control Of The Corn Borer

The European corn borer is being brought under control in Ontario, and the grain corn industry is being re-established in the province. The corn borer was first discovered in Canada in 1920. During 1924, 1925, and 1926, it had spread to such an extent that some corn fields had 400,000 borers to the acre. Since systematic control campaigns, under the Department of Agriculture, have resulted in the re-establishment of the crop.

Alaska can produce 1,500,000 cords of pulpwood annually which can be converted into 1,000,000 tons of newsprint or more than one-fourth of the present yearly consumption of the United States.

"What I want to see," said the girl who didn't receive even honorable mention at the beauty contest. "Is a group photograph of the judges' wives."

Extra Rich Milk Is Used In Famous Bohemian Cake

Practical foreign recipes are always of interest to the housewife anxious to vary the menu. This molasses cake is decidedly different, and yet is easily made if you have extra rich milk on hand. Borden's St. Charles is particularly satisfactory, because it is twice as rich as ordinary milk, taking the place of cream in a cake of this kind. It never varies in quality; consequently you can count on uniform results in every kind of cooking.

Bohemian Molasses Cake

- 1/2 cup butter.
- 2 cups sugar.
- 1 cup molasses.
- 1/2 cup black coffee.
- 2 eggs.
- 1 teaspoon baking soda.
- 1 cup Borden's St. Charles Milk.
- 2 cups flour.
- 1 teaspoon ginger.
- Cloves.
- Cinnamon.
- 1/2 lb. raisins.

Cream together half a cup of butter, a cup of sugar, a cup of molasses, half a cup of black coffee, two yolks of eggs, and a teaspoon of baking soda, dissolved in one-half cup St. Charles Evaporated Milk. Then add two cups of flour, a teaspoon of ginger, a dash of cloves, cinnamon and allspice, also half a pound of raisins, if desired. Bake rather slowly.

When done and cool, cover with icing as follows: Beat the two whites, pour into them, beating constantly, syrup made by boiling a cup of sugar with a fourth of a cup of Borden's St. Charles Milk.

Collecting Christmas Seals

Within the last few years stamp collectors, not content with the increasing number of new postage stamps issues, have added another item, Christmas seals, to their lists. As time goes on the Christmas seals are said to be increasing rapidly in value, although age does not always determine their worth.

Saskatoon Power Plant

Construction work on the new power plant at Saskatoon, being built by the Provincial Government, at a cost of \$2,000,000, is going forward rapidly, and it is expected to be finished by November 1931. This new plant is said to be the most modern in the Prairie Provinces.

Polar Bear Favourite At Banff

One of the greatest favourites of visitors to Banff National Park, is the polar bear in the Zoo. He was brought down as a tiny cub from near Byrd's Island, in the Canadian Arctic, by an officer of the Royal Canadian Mounted Police.

SUNDAY SCHOOL LESSON

NOVEMBER 8
RESPECT FOR RIGHTFUL AUTHORITY

Golden Text: "Let every soul be in subjection to the higher powers."—Romans 13:1.

Lesson: Mark 12:13-17; Romans 13:1-14; 1 Peter 2:13-17.

Devotional Reading: Matthew 5:13-20.

Explanations and Comments

Jesus Teaches Respect For Law. Mark 12:13-17.—The Pharisees had resolved to compass the death of Jesus. How could they accomplish this? They decided to attempt to ensnare Him in His talk, so that they could report something He said as treason, and thus secure from the Roman Governor His death sentence.

Craftily keeping themselves in the background, they sent certain Pharisees and Herodians to Him with that object in view. The Herodians were the court party; a small class who resembled the Roman ruler, but favored the kinship of the house of Herod and meant to be on good terms with the government at any cost. The Pharisees and Herodians and Herodians who hated each other, shows how great was their common hatred of Jesus.

"Teacher," the deputation began, "we know that Thou art true, and carest not for any man; for Thou regardest not the person of men, but of a truth teachest the way of God." By this preamble they meant to put the question they were about to propound was a dangerous one to answer, but they knew He was not afraid of consequences.

Then came the question His enemies wished Him to answer: "Is it lawful to give tribute unto Caesar, or not? Shall we give, or shall we not give?" The people and Herodians all Roman emperors; the reigning emperor at this time was Tiberius. The tribute was the yearly tax levied on individuals by the Roman Government. Whatever answer Jesus might give would tend to His hostility to Him, the questioners thought: for if He said that it was lawful to give tribute, the people and Herodians would say, "He is a man who is not for God." And if He said that it was not lawful, He could be reported to Pilate as a rebel.

"Bring me a denarius, that I may see it," Jesus commanded. Strict Jews would not carry a denarius; for they held that the emperor's image upon it savored of idolatry, but one was easily obtained from the money changers. When it was brought to Him Jesus asked, "Whose is the image and superscription?" "Caesar's," was the answer. "Render unto Caesar the things that are Caesar's." And then Jesus quickly added, "And unto God the things that are God's." While discharging the duties imposed upon them by human conditions, men must never lose sight of the duties imposed upon them by their relationship to God.

And they marvelled greatly at Him, at the ease with which He gave an answer that was irrefutable and at the same time evaded the difficult position into which they had thought to put Him and at the way in which He turned the question away from the realm of politics into that of religion.

Polar Bear Favourite At Banff

One of the greatest favourites of visitors to Banff National Park, is the polar bear in the Zoo. He was brought down as a tiny cub from near Byrd's Island, in the Canadian Arctic, by an officer of the Royal Canadian Mounted Police.

Magnesia Best for Your Indigestion

Most people who suffer, either occasionally or chronically from gas, nervousness and indigestion, have now discovered the disagreeable, distasteful, and unwholesome, and instead, take a little Blaud's Magnesia after meals with the result that their stomach no longer troubles them; they are able to eat as they please and they enjoy much better health. Those who use Blaud's Magnesia after meals with the result that their stomach no longer troubles them; they are able to eat as they please and they enjoy much better health. Those who use Blaud's Magnesia after meals with the result that their stomach no longer troubles them; they are able to eat as they please and they enjoy much better health.

Test Was Successful

Flying Boat Made Hour Flight With 100 People

D.O.-X, huge 12-engined flying boat, which was launched at Althaus, Switzerland, last July, has made an amazing one-hour flight with a hundred passengers and a crew of 10. The flying boat, which may be used for a trans-Atlantic crossing for the purpose of trying out her capacities, was built in the greatest secrecy. She was designed to carry 40 passengers normally, but has accommodations for 100 if necessary. Her 12 engines can develop a total of 6,000 horsepower and each engine can be treated individually without affecting its neighbors.

The D.O.-X measures 150 feet from tip to tip, and its wings are 10 feet thick and 150 feet from wing tip to wing tip. Six great turrets project from each wing and each turret is equipped with two engines of 500 horsepower. The turrets are mounted by mechanical means, and walk along a passage on the inside of the wings from one turret to another.

When the D.O.-X was launched, last July, she carried 34 tons of weight and was able to get into the air with the greatest ease after a take-off run of only 500 yards. Other trials were similarly successful.

One of the features of the plane is her three decks, while another is that the machine can fly with only eight motors in use.

Dr. Dornier built the plane at Althaus, on the Swiss side of the German-Swiss frontier, because of the high cost of German aircraft during the treaty of Versailles.

A spider has eight legs and from six to eight eyes.

Ever Try This?

The greatest remedy for sore throats, whooping cough, bronchitis, coughs, colds, influenza, and all other respiratory troubles, you can't lose, 177 1/2 lbs. per box. German Patent. KITCHENER TONBILLS CO., Kitchener, Ont.

WINDOLITE The Improved Glass Substitute

MADE IN ENGLAND

COMES WITH A MESSAGE OF HEALTH

THE sun is the all-powerful life producer. Nature's universal, disinfectant and germ destroyer, as well as stimulant and tonic. WINDOLITE is the sun's most important ally.

Medical research has definitely proved that from the point of view of Health and Hygiene, the most effective among the sun's rays, are the Ultra-Violet rays, which possess the greatest power for the prevention and cure of disease and debility.

Science has further established that ordinary window glass does not allow the passage of Ultra-Violet rays, so that by using glass we are artificially excluding these vital health-giving rays. Therefore, the invention of WINDOLITE has completely satisfied the long-felt want. Exhaustive experiments have conclusively proved that it is a most effective substitute for glass, that it freely admits the Ultra-Violet rays, and that it uses has a most beneficial effect on the growth and development of plants and animals, on the well-being of cattle, enabled for the first time to have healthy light instead of darkness in their sheds.

Indeed, the discovery of WINDOLITE has during the last six years completely revolutionized the growing of plants and poultry breeding, increasing the egg-laying capacity and fertility of chickens, has greatly improved the health of cattle and sheep, and is used in domestic and household requirements.

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandas, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold and rain, but lets in the sun's rays, and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 lbs. One square yard of glass of ordinary thickness, weighs about 125 to 130 lbs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

WORLD HAPPENINGS BRIEFLY TOLD

The Royal Canadian Mounted Police have the right to enforce the Manitoba Liquor laws, Magistrate Ridsdell decided in the case of Alfred Chartrand, at The Pas.

John M. Allen, Brandon, and Lachlan McNeill and James Carruthers, Winnipeg, have been named Manitoba members of the Canadian Farm Loans Board.

While his plane dashed to earth in a tall spin, Lieutenant John Seligman, army pilot attached to Mitchell Field, dropped more than 2,000 feet with a parachute and escaped with only a scratched ankle.

Losses suffered by the government of British Columbia on land settlement schemes launched since the war will total \$5,279,000, according to an estimate prepared by special auditors who have been making an intensive investigation of the province's finances.

Canadian surgeons who accepted the fellowship in the American College of Surgeons, included James E. Mason, Stettler, Alberta; Frank P. McNamee, Kamloops; Cyril Stanley Williams, Trail; George P. Bowden, Moose Jaw, and Samuel Harvey Corrigan, Lethbridge, Saskatchewan.

A noted figure in Canadian military circles died at Quebec in the person of Major-General Alfred O. Pagés, former officer in command of the Canadian training camp at Valcartier, Quebec. At the close of the Great War, Major-General Pagés retired on pension.

Of the candidates examined by the radio branch of the Department of Marine and Fisheries, during the month of September, those successful in obtaining commercial certificates of proficiency in radio-telegraphy, included B. W. P. C. Maylor, Vancouver, and L. H. Ferras, Regina.

From the Arctic to Cuba by canoe—that is the plan of Charles Plain-shik and his two youngsters, Inez, 9, and Anthony, 8. More than six months ago, the family of three went north from The Pas, Man., and since then they have journeyed 3,000 miles by dog sled and canoe.

Direct diplomatic relations between Canada and Japan were established when Hon. Isamasa Tokugawa presented his credentials at Government House, and at the Department of External Affairs. In a brief ceremony the letters of credence were read and the Japanese minister welcomed at Ottawa.

Has Furthered Understanding

Dr. Nicholas Murray Butler, president of the Carnegie Endowment for International Peace, told the Institute of International Law, at New York, that "Premier MacDonald and President Hoover, in their recent conference did much more toward furthering an understanding between their nations than could have been done in 40 years of diplomatic procedure."

Regina Building Operations

Building operations in Regina continue uninterrupted. Permits up to the end of September amounted to about \$9,000,000, which is more than double the figure for the similar nine month period of last year.

COWLEY HAPPENINGS

The Maple Leaf boys played Cowley a return game of baseball on Saturday afternoon last, the result being 4 to 5 in favor of Cowley.

W. H. Torrance, who has resided here for a number of years, left on Saturday for the old home in England, where he intends staying in future.

The monthly meeting of the Cowley Women's Institute met at the home of Mrs. Easterbrook on Thursday last at 8 p.m. Seven interesting topics were brought up for discussion, among which were: making arrangements for a whistle drive to be held in the new Masonic hall in aid of the Red Cross on Friday, November 15th; a social evening, Friday, November 1st, when the Cowley institute will entertain the Landbreck institute. Mrs. Forster is kindly giving her house for this occasion. The following were present: Mrs. Dr. Donald, Mrs. Easterbrook, Mrs. Broxwell, Mrs. Fortier, Mrs. Heathcriston, Mrs. Porter, Mrs. Murphy, Mrs. Smyth, Mrs. Snyder, Mrs. Morrison and Mrs. Cowin. The next meeting will be held at the home of Mrs. Arthur Betts on Thursday, November 26th, at 8 p.m., if weather will permit; otherwise at the home of Mrs. Fred Tustan in town.

R. W. Coulthard, general manager of the mines at Blairmore and Lillie, accompanied by Mrs. Coulthard and daughter, were visitors in town this week. Mr. Coulthard has for many years one of the most trusted and popular officials of the Crows' Nest Pass Coal Company, latterly acting as Sales Agent. His many friends will be glad to hear that his ability has been recognized and rewarded by his appointment to the prominent position he occupies as general manager of the West Canadian Collieries. —Fannie Free Press, twenty years ago.

From A. E. Ames and Company, investment bankers, comes the statement that more than half the bond flotations in Canada this year have been placed within the dominion with a total bond issue of \$387,564,792 up to September 9. There were sold in Canada \$200,965,792, in U.S. \$167,287,000, in Britain \$19,000,000. Corporation bonds form the largest class with two thirds sold at home. In railroad securities, Canada has over half and the bulk of municipal bonds remain at home.

Danny Quar'n and family left the early part of the week for Vancouver, where they may make their future home.

Capt. W. A. Beebe returned Friday morning from a visit with his son, Frank at Regina.

BLAIRMORE HOCKEY CLUB ANNUAL MEETING

The annual meeting of the Blairmore Hockey Club was held in the Elks' hall on Tuesday evening and was largely attended.

Prior to the meeting being called to order, the gathering sat down to a sumptuous repast, the hockey boys having as their guests: Mr. L. L. Morgan, vice-president of the Alberta Amateur Hockey Association, and Mr. W. H. Chappell, local governor of the Amateur Athletic Union of Canada.

Following supper, Mr. Robert Gray called the meeting to order. The report of the secretary-treasurer was read and approved and the hockey prospects in general were reviewed. The report showed that the receipts for last season amounted to \$1434.00, with disbursements of \$1538.00, leaving a deficit of \$104.00 on the season's operations.

Owing to the possibility of being unable to form a local district league for this season, it was decided to send a delegate to the South Alberta League meeting to be held in Calgary next Sunday. Mr. W. W. Scott was elected to represent the Blairmore club at such meeting and endeavor to have Blairmore admitted into that club.

The election of officers resulted as follows:

Honorary Presidents—Mayer J. H. Farmer, J. Charbonnier, G. A. Vissac and R. W. H. Pinkney.

President—Robert Gray.

Vice President—Alex. McVey.

Sec. Treas.—J. V. McDougall.

McDougall.

Coach-Manager—W. W. Scott.

Trainers—Alex. McVey and Cliff Miller.

J. D. Thomas, general manager of the Great West Coal Company and manager of the Monarch Mine at Naamane and the Star mine at Rosedale, was instantly killed on October 19th, when 13,200 volts passed through his body from a transformer at the Monarch mine. Mr. Thomas was a former resident of this district, having many years ago worked in the mines at Fernie, Passburg and Frank. He was a single man and is survived by a brother, who lives at Marlboro.

Edmund Mills, former Fernie lad, was killed near Bellingham, Wash., last week, when fear overcame him while preparing to make a parachute jump and he plunged two thousand feet to the ground. While standing on a wing preparing to jump, Mills became panic-stricken. He could not be assisted by the pilot or passengers, and clutching his parachute hold to him he slipped into space, holding the chute bag so that it could not open.

Robin Hood FLOUR

Sold and Guaranteed by Your Dealer

Monday papers are interesting, if you care for mortality statistics.

Because of the snow storm over the week end, golfers were forced to stay at home and face work.

Outsiders are inclined to think that Almie McPherson is within her rights if, as is claimed, she charged up her huge bills for facial and hair treatments to church expenses. She had herself beautified to attract people to her church. She succeeded, so why were the bills not legitimate church expenses.—High River Times.

Now, when work at the mines is rather slack, would be a good opportunity for the government to undertake the re-filling of the crib-work done along the main river banks a few years ago and which with the high spring freshets of the past couple of years has been almost completely removed. If some steps are not soon taken in this regard, considerable property damage may be expected next spring.

The modern girl would rather mend a fellow's ways than his socks.

Practically Nothing

"How many in your family, mum?"
"I have six children but they are all girls. It's a light wash."—Louisville Courier Journal.

Town Cop (to man parked on the wrong side of the street): "Say, where is your ethics?"

Motorist: "Why, I traded it in for a Hudson!"

A little girl ran into the house with a piece of wire which she had picked up in the street, and inquired of her sister what it was. Her sister looked at it blankly for a moment. "I don't know," she said; "go and ask mother." The mother thought hard for some moments but, at last, gave it up. "Go and ask grandma," she said. The little girl did as she was told. Grandma told her. It happened to be a hairpin.

The Family Teeth

Two elderly Scotch brothers entered a restaurant and ordered a ham sandwich each. One started eating. The other just sat and watched his brother eat. The waitress, thinking something was wrong with the idle Scotchman's sandwich, inquired:

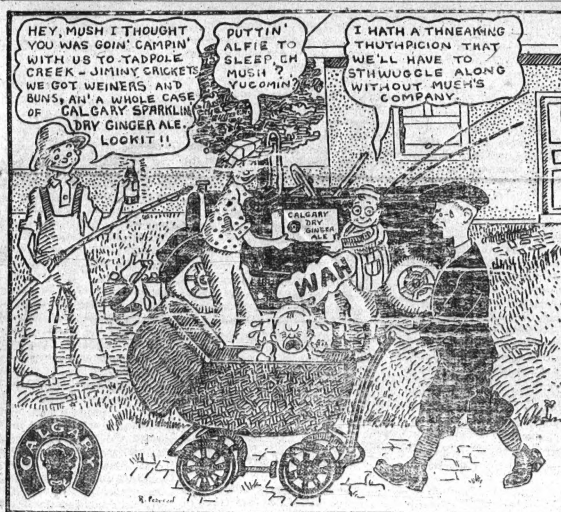

"Is there something wrong with your sandwich, sir?"

"Nawthin, lassie," he replied, and continued to refrain from eating.

In a few minutes the waitress, believing Sandy was too timid to complain, asked him again, "Can't I exchange your sandwich for something else, sir, if there's anything wrong with it?"

"No, lass, I'll just be waiting a bit for Angus to finish using our teeth!"

When you sit with a nice girl for two hours, you think it's only a minute; but when you sit on a hot stove for a minute, you think it's two hours. That's relativity.

'Fresh from the gardens'

The National Value of Radio

When the automobile began coming into use 25 or 30 years ago, it was looked upon as a luxury for the rich, another means of providing for their entertainment and catering to their enjoyment, but not to be regarded as a new means of transportation for the great masses of the people. Yet within the short span of a quarter of a century the automobile has revolutionized our habits and modes of living, until today the family that does not own a car is the exception, rather than the rule. At first it was the common practice to criticize the farmer who bought a car; now it is recognized as a practical farm necessity. What was to be a plaything of the rich has become the most popular means of transportation, and is seriously challenging the railways as carriers of freight for the shorter hauls. The automobile, too, has altered all preconceived ideas in road-building and the value and necessity of good roads.

Within even more recent years has come the discovery of the radio. This, too, was accepted at first as more or less of a plaything, something to provide pleasure in the form of musical entertainment in the home. Its value in this respect, especially in rural homes, and in towns and villages not enjoying the advantages which the large cities possess in the way of concerts and theatres, was quickly appreciated. Then came the broadcasting of grain and other market quotations, weather forecasts, live news bulletins, and information of general interest and value to the rural dweller, hours and days in advance of the time he would otherwise receive the same. As a result, within recent years, radio has been installed in tens of thousands of homes.

In a very notable way the value and influence of the radio has been extended in the last two or three years through the linking up of a number of stations through which programmes of exceptional merit are made available to all parts of the continent, even the world. One such chain after another has been created, but beyond one or two attempts, notably the Diamond Jubilee broadcast from Ottawa, in 1927—Canadian listeners have not had the benefit of Dominion-wide Canadian programmes, but have had to depend largely on United States stations.

All this is now changed, and this year Canada is being favored with Dominion-wide broadcasts, sponsored by large Canadian corporations, equal in every respect to the best that is presented in the United States. These Canadian programmes are now available several nights every week and the finest symphony orchestras and artists of the large Eastern Canadian cities can be heard in Western Canada homes. Not only so, but some of the outstanding musicians of Great Britain are being brought to Canada to broadcast over these Canadian chains.

In the past when outstanding statesmen like Rt. Hon. Ramsay MacDonald visited Canada, a comparative small number of people in Ottawa, Toronto or Montreal had the privilege of hearing him. On his recent visit to Ottawa, when he was the guest of the Government of Canada, at a late dinner, hundreds of thousands of Canadians from Halifax to Victoria, listened to his inspiring address in the Houses of Parliament. His plea for international goodwill and world peace, his insistence that these could only be achieved through a "will to peace" on the part of the people themselves, was listened to by hundreds of thousands, and received by them as a direct personal message, couched in homely language, and reinforced with all the personal message, courtesy of which Mr. MacDonald is capable. In other words, the Prime Minister of Great Britain was enabled to talk, not merely to President Hoover and Premier Mackenzie King, but to untold millions of people in the United States and Canada.

The national, yes, international, value of such addresses cannot be correctly estimated. The radio has become one of the most powerful factors in breaking down the suspicions, the ill-will, the fears, which exist and develop across international boundary lines. The fact that statesmen can thus appeal direct to the masses of the people, their own and those of other nations, must prove a tower of strength to the cause of true democracy and better world understanding.

Even so, the radio is still in its infancy. What wonders it will yet unfold to us in five, ten or twenty years, can hardly be imagined. It may bring improvements so vast, including television with the broadcasting of moving pictures and current happenings, and other developments as to make the radio achievements of today seem very crude indeed.

An Interesting Collection

Valuable Documents Presented To Library of Toronto University

A collection of historic documents, illustrations, maps, autographs and letters has been presented to the library at the University of Toronto by Henry Sproule. It includes the first example of a speech made by Sir John Graves Simcoe, a proclamation made at Newark in 1795, and letters from Sir Isaac Brock, William Lyon Mackenzie, Bishop Strachan and many other Canadians famed in history.

Origin Of The Farthing

The English farthing gets its name from "fourth thing." Pennies hundreds of years ago were made of softer metal than today. They were also marked deeply across and down. This was so that they might be broken in two, if something was wanted that was only a "half-penny." This again could be broken for something costing the fourth of a penny.

Earache

Heat an iron spoon. Place four drops of liniment and four drops of sweet oil in it, mix and put one or two drops in the ear.

W. N. U. 1809

A New Musical Device

"Theremin" Has Tonal Quality Similar To Cello Or Violin

Now you can be a musician without ability. All that is necessary is to hum a tune, wave your hands over a gadget created by the Radio Corporation of America, and you get a fine musical effect.

The new device is called the "Theremin" and has a tonal quality similar to the cello or violin. It was displayed at opening of the radio world's fair recently, having a place in the exhibit because it is operated by two antennae.

LIFE WAS A BURDEN

Health Restored Through the Use Of Dr. Williams' Pink Pills

"I am writing to express my gratitude for what Dr. Williams' Pink Pills have done for me," writes Mrs. W. J. Dowling, Tottenham, Ont., and further says: "I was so badly run down that I felt that life was a burden. The doctor said my trouble was due to poor blood, but his medicine did not help me. My face was sallow, my lips bloodless and at the least exertion my heart would palpitate so violently that I would have to lie down. My feet and legs would swell and cramp, and all my friends thought I was in a decline. In this condition I was urged by a friend to try Dr. Williams' Pink Pills. I got three boxes, and to my delight, by the time I had used them I began to feel better. I got a further supply and kept on taking them. Daily I felt myself growing stronger. The color returned to my cheeks and lips and I felt a new lease of life. I am now well and strong, and I feel fine, for which I give the credit to Dr. Williams' Pink Pills. I strongly recommend to all weak girls and women."

A useful book, "Building Up the Blood," will be sent free on request by the Dr. Williams' Medicine Co., Brockville, Ont. Dr. Williams' Pink Pills are sold by all druggists or will be sent by mail, post paid, on receipt of price 50c. Try them today.

Demonstrates New Form Of Rejuvenation Operation

American Surgeon May Throw Light On Eternal Quest For Youth

Man's eternal quest for youth held the attention of a group of surgeons attending the American College of Surgeons' clinic recently, after Dr. V. D. Lespenasse, Chicago, demonstrated a new form of rejuvenation operation. Although the college has not given official sanction to this type of surgery, the operation is causing comment.

Phlebophlebotomy, meaning "vein to vein" in the surgeon's vernacular, forms the basis of Dr. Lespenasse's new technique. The surgeon joins certain veins in the lower abdomen, causing the blood to follow a different course and thus, it is claimed, revitalizing the glands. The operation does not involve the transplanting of glands or the use of glandular extracts.

Dr. Lespenasse, in 1922, performed a rejuvenation upon Harold F. McCormick, prominent Chicagoan. The surgeon said that his method had passed the experimental stage and has been used on many patients.

Dr. William A. Osborne, Melbourne, Australia, dean of the faculty of medicine and chairman of the cancer research committee of the University of Melbourne, was amongst those awarded honorary fellowships.

Feet Sore? Use Minard's Liniment.

A Big Yield

The farm of George Shields, east of Raymond, Alberta, yielded fifty bushels of Marquis wheat to the acre on a ten acre field. The wheat graded No. 1 locally. Several other farmers of the neighborhood have yields of 40 bushels to the acre.

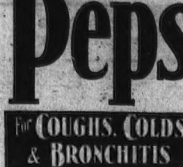

Her Little Boy Was Very Ill With Summer Complaint

Mrs. Ray Fisher, Lebert, Sask., writes: "For over a month, last summer, my little boy was suffering from summer complaint. He got so bad there began to be traces of blood in his stool, and everything he would not stay on his stomach very long. He became so weak he could not stand up. A neighbor recommended

was half used he was the same happy, healthy boy he was before he took sick. Put up only by The T. Millard Co., Ltd., Toronto, Ont.

The Breathable Tablet

Far North Is Favorite

Air Mail Rates To Arctic Cheaper On Continent

To Canada's far northern outposts, Akivik and Herschel Island, once absolutely remote from communication of any kind during the long, white months of winter, aeroplanes, manned by aces of treacherous aerial trails, soon will be winging their way on regular schedule, carrying to the trader, hunter and trapper, mail and merchandise from the "outside" and returning speedily with the products of the great wilderness—furs—for the world markets.

Commenting on the proposed aerial service, which is scheduled to start with the departure of the first plane from Edmonton on November 26 northward bound, Thomas Bower, postmaster in Winnipeg, points out the new air-mail parcel rate will be the cheapest service of the kind in America. There is, of course, no competitive service to consider and this is the paramount factor in the low rate. It will be cheaper to send a parcel from Winnipeg to Herschel Island by air than from Toronto or Montreal. The rates range from 50 cents per pound to Fort Providence to \$1.00 per pound to Herschel, as compared with the charge of \$1.55 from Eastern Canada.

To the distant posts of Akivik and Herschel the air-mail schedule calls for three flights, November 26, January 21, and March 25, while to forts and trading posts "in between" weekly and monthly service, depending on distance, will be maintained.

Ready-Made Medicine.—You need no physician for ordinary ills if you have at hand a bottle of Dr. Thomas' Electric Oil. For coughs, colds, sore throat, bronchial troubles, it is invaluable for scalds, burns, bruises, sprains it is unsurpassed; while for cuts, sores and the like, it is an unquestionable healer. It needs no testimonial other than the use, and that will satisfy anyone as to its effectiveness.

A Tip To Fishermen

Do Not Attract

All Fish Color Blind and Gaudy Flies. That all fish are color-blind is the assertion of Dr. Thomas Hall Shastad, of Superior, noted wild life research worker.

"The fisherman who attempts to lure the brightly colored trout flies," Dr. Shastad declared, "is foolishly working against an established principle of nature."

"Neither black nor white exist to the wary brook trout or grayling. All colors to them are a dull gray wall."

Sir John Martin Harvey

Appearing In Western Canada In "The Lowland Wolf" and "The Only Way"

For his latest success, which will be presented at the Grand Theatre, Regina, on Monday and Tuesday, November 4th and 5th, Sir John Martin Harvey has gone to the modern Spanish. The title is "The Lowland Wolf." From the pen of Angel Guimera, the play presents to Sir John a remarkable chance to show talents that have not been altogether displayed on his recent Canadian tour.

The present tour of Sir John across the Dominion will be the sixth All-Canadian Tour that the actor has undertaken. On this occasion he will give the farewell performance of his greatest play "The Only Way," which has won deep place in the affections of Canadian players. There is little need to glaze upon the performance of Sir John Martin Harvey as the absolute Sidney Carter, who lays down his life for the lady he loves. But probably all those who have not seen the play, and also all those who have already seen it, will be present at these farewell performances during the present Canadian Tour. Miss de Silva will appear in her original part of Mimi, and Sir John will bring with him a particularly strong company, which includes many favorites who have already made themselves popular in the Dominion, and will be warmly welcomed when they appear at the matinee and night of Wednesday, November 6th.

Pacific University, Oregon, was founded in the pioneer days of 1849.

Stop falling hair with Minard's Liniment.

Made North-West Passage

Attempt Of Hudson's Bay Fur Trading Ships Was Successful

Three ships engaged in the fur trade and owned by the Hudson's Bay Company have between them forced the dreaded northwest passage, according to news reaching the Hudson's Bay Company offices at London, England. The ships are the "Bay of Chimo," "Fort James," and "Fort MacPherson." The "Bay of Chimo" left Vancouver last July and sailing through the dangerous Behring Strait, reached Point Barrow on July 24, and Cambridge Bay on South Victoria Island on August 25.

Last year the schooner Fort James, under the command of Captain Bush, sailed from Montreal and having wintered in the ice, began with the coming of spring a long fight to reach King William Land. This vessel was joined there by the "Fort MacPherson," which cruises within the Arctic Circle as a supply ship for trading posts and exploration purposes. The Fort MacPherson had sailed from Cambridge Bay, the farthest point reached by the "Bay of Chimo."

In this way, three vessels contracted to do what would have been impossible for one alone to accomplish. During the winter, locked in the ice, those aboard the "Fort James" endured great hardships and for most of the time were actually prisoners in the frozen waters. It is thought that the successful attempt to force this passage may mean that ships will be brought more quickly to Britain than in the past. An official of the Hudson's Bay Company declared that it remains to be seen whether such a journey is a commercial proposition. If this proves to be the case, the dangerous voyage from Vancouver through Behring Strait will be avoided.

High Grade Crop

According to the manager of the Canadian Wheat Pool, which markets the larger percentage of the wheat crop of Canada, most of this year's crop is grading No. 1 and No. 2, and there is so little of the lower grades passing through the elevators that hardly enough of grades 4, 5 and 6 can be found to make up composite samples for grading purposes.

Mothers can easily know when their children are troubled with worms, and they lose no time in applying a reliable remedy—Mother Graves' Worm Extirminator.

To Establish Sheep Ranch

It is reported that a sheep rancher in Nebraska has bought eighteen sections of land at Pinnaglin, Alberta, along the river, upon which he intends to set out a flock of sheep numbering about 20,000 next spring.

Wife (who has caught her husband squandering a penny on a fortune-telling machine): "Fm! So you're to have a beautiful and charming wife, are you? Not while I'm alive, Horace—not while I'm alive."

Don't dose a Child's Cold

CONTINUAL dosing upsets children's delicate stomachs. Vicks is applied externally and therefore cannot disturb the digestion. It acts in two ways:

(1) The body heat releases the ingredients in the form of vapors which are inhaled.

(2) At the same time Vicks "draws out" the soreness like a poultice.

2 ways at once
VICKS

Discovers New Anesthetic

Toronto Doctor Mayes Important Announcement At Meeting

In Chicago

Cyclopropane, a new anesthetic gas which does not interfere with normal functioning of the body, was described by G. H. W. Lucas, of the Toronto University, Department of Pharmacology, at the eighth annual congress of anaesthetists in Chicago. Lucas said the gas was in an experimental stage, having been administered only to animals as yet, but expressed great hopes for its early adoption by hospitals.

Conquers Asthma. To be relieved from the terrible suffocating due to asthma is a great thing, but to be safe guarded for the future is even greater. Not only does Dr. J. D. Kellogg's Asthma Remedy bring prompt relief, but it introduces a new era of life for the afflicted. Systematic inhalation of smoke or fumes from the remedy prevents re-attacks and often effects a permanent cure.

The Oddest Barber Shop

Probably the oddest barber shop in the world is run by a barber named Pesta, at Islington, London, England. The walls, ceiling and floor are covered with thousands of small pieces of glass, painted all colors of the rainbow and in all different shapes. The total number of pieces of glass is about quarter of a million.

Feldspar In Canada

All the feldspar mined in Canada is of the potash variety known as orthoclase or microcline. Soda feldspar (albite) is known to occur but there is little demand for this variety and none is mined.

Alberta Wheat Pool Elevators

The Alberta Wheat Pool's 468 elevators are valued at \$6,000,000. Eighty-five elevators were built this year and 35 purchased.

Needless Pain!

Nowadays, people take Aspirin for many little aches and pains, and as often as they encounter any pain.

Why not? It is a proven antidote for pain. It works!

And Aspirin tablets are absolutely harmless. You have the medical profession's word for that; they do not depress the heart.

So, don't let a cold "run its course." Don't wait for a headache to "wear off." Or regard neuralgia, neuritis, or even rheumatism as something you must endure. Only a physician can cope with the cause of such pain, but

You can always turn to an Aspirin tablet for relief.

Aspirin is always available, and it never fails to help. Familiarize yourself with its many uses, and avoid a lot of needless suffering.

ASPIRIN

TRADE MARK REG.

STOCK EXCHANGE STAMPEDE WORST PANIC SINCE 1914

New York.—The remarkable era of wild public speculation in stocks which has swept over the country during the past five years, came to a climax in the most terrifying stampede of selling ever experienced on the New York stock exchange and other leading securities markets.

Not since the war panic which resulted in closing the exchange for 17 weeks in 1914, has Wall Street seen such a dark and trying day, and never in financial history have securities markets been thrown into such a tumult. It appeared for a time that the stock markets would be unable to face the situation and that trading would have to be suspended, but the leading exchanges saw the ordeal through, although a few floor traders collapsed and had to be aided from the trading rooms.

The situation became so grave that a hurried meeting of leading bankers was called at the office of J. P. Morgan and Company, and a reassuring statement issued from the conference by Thomas W. Lamont, one of the Morgan partners, finally checked the sickening drop of stock prices and saved the market from a complete impasse.

Scores of important stocks tumbled from \$15 to \$70 a share, paper values vanishing at the rate of tens of millions of dollars, when the bankers' statement prompted large operators who were resuming business to sell the market short, to cover their commitments, and prices of many issues rebounded.

The stocks of six leading corporations at their low levels of the day on the New York stock exchange showed a loss in total market value of nearly \$1,000,000,000. The market value of the total outstanding common stock of General Motors showed a loss of approximately \$588,000,000, that of American Telephone and Telegraph Company \$273,000,000; Radio Corporation of America \$150,000,000; U.S. Steel \$78,000,000; Standard Oil of New Jersey \$68,000,000; General Electric \$64,000,000.

Total sales on the stock exchange reached the amazing figure of 12,894,680 shares, surpassing by more than 50 per cent the previous record of 8,246,740 reached in March 26. The ticker quotations service fell selling behind transactions and traders who were unable to get quotations from the floor proceeded blindly, save at intervals when a few stocks were sent out through the bond market ticker. Closing prices presented a picture of havoc among quoted values, hundreds of shares selling at or near low levels for the year, and from \$20 to more than \$100 below the record prices reached in recent months. Nevertheless the stock level at the time of the closing gong was found to be substantially above the bottom levels of the day, approximately half of the losses of the terrifying early hours of the day having been regained.

Attempts Life Of

Italian Crown Prince

Assailant Said He Intended To Fire Into Air

Brussels, Belgium.—A shot was fired at Crown Prince Umberto of Italy, as he held a wreath on the tomb of Belgium's unknown soldier. The prince, uninjured, ignored the incident, but police arrested the assailant immediately. Infuriated, the crowd stormed the police station, demanding that the man be lynched. The prince's assailant told the police he is an Italian named Enrico Driess, and was born in 1904. He said he had intended to fire into the air as a mark of protest. He arrived from France and was in possession of identification papers from that country.

The attempt was attributed in Rome, to resentment of anti-Fascists in Brussels against commutation and execution recently, at Pola, of Vladimir Gortan, Jugoslavian "terrorist," who fired on a line of voters last election day.

Will Release Douchkoffs.
Ottawa.—Thirty Douchkoffs now in jail in Saskatchewan, are to be released on ticket of leave, Hon. Lucien Cannon, solicitor-general, announced on request of Hon. M. A. MacPherson, attorney-general of Saskatchewan.

The Chinese Free Masons of the World in their convention at San Francisco pledged \$100,000 for a peace temple in Shanghai.

By W. M. U. 1800

Urges Free Speech

Best Way To Deal With Communists Says Miss McPhail

Toronto, Ont.—Miss Agnes McPhail, Canada's only woman member of parliament, in an interview referring to trouble between the local police and Communists, said: "My opinion of the way to deal with the matter is to let the Communists have free speech. In the words of some one who spoke about Hyde Park, in England, Queens Park might be a real safety valve for Toronto exuberant Communists. The police have been making themselves the laughing stock of all-thinking people. It is the silliest business I have heard of some time."

Renews Arts Competition

Eight Prizes Are Again Offered By Lord Willingdon

Montreal.—Lord Willingdon, Governor-General of Canada, has informed Sir Arthur Currie, principal of McGill University, by letter of the renewal of the Willingdon arts competition, inaugurated last year. Eight prizes in all are offered with a view of furthering and encouraging cultivation of art and literature. Four prizes of \$100 each are offered for competition in music, two in literature of \$100 each, one in painting of \$100, and one prize in sculpture of \$200.

Receive Severe Sentence

Chinese Dealers In Narcotics Given Long Jail Term

Vancouver, B.C.—Travellers in narcotics received severe sentences at the close of the fall assizes, when Mr. Justice D. A. MacDonald sentenced Henry Chow, 25-year-old Chinese, to seven years in the penitentiary, a fine of \$1,000 or 100 lashes. Chow was convicted of having cocaine and morphine in his possession. Nip Gar, alias Jang Shee, 55-year-old Chinese woman, convicted of a charge of selling opium, was sentenced to two years imprisonment and fined \$1,000.

Will Investigate Tariff

Advisory Board To Discuss Applying To Cotton Goods

Ottawa.—The reference from the Minister of Finance to the tariff advisory board to investigate the fifty per cent British content provision in the preferential tariff applied on cotton goods from Britain coming to Canada, will open here on November 7. This was decided by W. H. Moore, chairman of the board, following a conference lasting all forenoon between members of the board and representatives of the British high commissioner's office.

League Receives Notes

Geneva.—The secretariat of the League of Nations has received from the Canadian Government for registration and publication, copies of notes exchanged August 2 and September 19, 1928, by Canada and the United States with reference to an agreement for the exemption of shipping companies from income tax.

Less Unemployment In Britain

Montreal.—While unemployment is still a serious question in Great Britain, it is not so manifest as it might appear, according to A. T. Welton, vice-president of the Canadian National Railways who has just returned from a trip abroad. The country as a whole, has the appearance of growing prosperity.

Will Be Guest Of Honor

North Battleford, Sask.—Premier J. T. M. Anderson will be the guest of honor at the annual rally sponsored by the Board of Trade, which will be held here Thursday, November 12. More than 2,000 people attended the function last year when farmers from all parts of the district came in for the day's entertainment.

Relief Fund For Miners

London, England.—The fund for relief of distress among the families of unemployed coal miners has been reopened for the coming winter. Various grants have already been allocated and altogether about \$2,500,000 will be spent. The distribution of relief will take the form entirely of clothing.

Sailing November Thirtieth

Toronto.—The tugboat delegation to the London naval conference in late January, will sail from here for Seattle, on November 30, proceeding from that city to Washington for a visit with President Hoover and then to Stimson before going to London.

Munich, Germany, was founded by the monks.

To Take Over Branch Lines

Statement Made That C.N.R. Will Operate Cranberry To Sherri-Gordon Branch

Winnipeg.—Announcement is made that the branch line from Cranberry to the Sherri-Gordon mine at Cold Lake will be taken over by the Canadian National Railways at the end of October.

It is expected that when the branch is taken over there will be a tri-weekly passenger service to and from The Pas and a daily freight service.

H. MacLean, president of the Dominion Construction Company, stated that work on the branch had been completed well ahead of schedule. Local mining men believe that the taking over of the line by the C.N.R. will lend great impetus to mining in Northern Manitoba. Work on many promising prospects have been held up, they state, because of the exorbitant cost of taking machinery into the Cold Lake mining area by winter trails.

Believes Draft Satisfactory

Manitoba Cabinet Discusses Agreement For Return Of Resources

Winnipeg.—Tentative draft agreement for transfer of natural resources will probably be satisfactory to Manitoba, believes Hon. Charles Stewart, Minister of the Interior. The Dominion minister conferred with members of the Manitoba cabinet on the first occasion for informal discussion of the draft.

With certain modifications suggested at the conference, the draft was considered to meet with the approval of the government. Every member of the cabinet was present, with the exception of Premier John Bracken, who is absent in the Old Country. Application of the Manitoba Power Company for extended pulpwood limits is to be considered at a conference to be held on Mr. Stewart's return from the west.

ITALIAN MINISTER TO CANADA MAY BE APPOINTED

Ottawa.—The appointment of an Italian minister to Canada was forecast in cable despatches received here, that Agostino Ferrante Di Ruffano, Italian consul-general here, would soon be transferred to Philadelphia and that he will be succeeded in Ottawa by Count Delfino Rogier Di Villanova, counselor and senior assistant at the Italian embassy in London, England.

The despatches forecasting that Italy would ultimately follow the example of the United States, France and Japan by appointing a minister to the Dominion has caused considerable interest in government circles. Some time ago there was a similar report with respect to Germany. The Department of External Affairs would make no official comment with regard to either report. However, there is a general impression that Canada's diplomatic services abroad will be extended. Germany and Italy appear as likely countries with which Canada would next exchange ministers.

Margue Ferrante, in an interview, said he knew nothing of reports emanating from London that his government would appoint a minister to Canada. "It is quite possible," he is quoted as saying, "but it may not be for some time yet."

GEOLOGIST RETURNS FROM NORTH

Pears for the safety of Geoffrey Gilbert, above, geologist with the Dominion Explorers, have been alarmed by the news of his arrival at Port Simpson. He was to have been picked up by the MacAlpine party and for a time it was not known whether he had been forced down with them or was awaiting their arrival. "Punch" Dickens brought him and three others out during an unsuccessful fight to locate the MacAlpine party.

Pears for the safety of Geoffrey Gilbert, above, geologist with the Dominion Explorers, have been alarmed by the news of his arrival at Port Simpson. He was to have been picked up by the MacAlpine party and for a time it was not known whether he had been forced down with them or was awaiting their arrival. "Punch" Dickens brought him and three others out during an unsuccessful fight to locate the MacAlpine party.

Spirit Of The West

Nothing To Worry About, Newspaperman Tells Easterners

Toronto.—"The spirit of the west is steady and hopeful," said T. H. Miller, of the Moose Jaw Times, here for the meeting of the directors of the Canadian Press. Mr. Miller is a well-known western newspaper man and was a charter member of the Western Association Press when it started in Winnipeg, 22 years ago. Also he farms himself on a considerable scale, being interested in three sections, nearly 2,000 acres, under cultivation in Saskatchewan.

"This is not a bad economic crop for the west," he said, "with 250,000 bushels of high-grade wheat. There was a great saving in operating cost, because we did not import a single harvester, farmers garnering the crop with their own labor, the combine harvester now widely in use being in part responsible. Of course, there are cases of individual hardship, some farmers not even saving seed, but these are being taken care of by municipal and farmers' organizations, and it is unlikely it will be necessary to ask Ottawa for financial help as was the case some years ago."

"We expect to get higher prices, and the sentiment of the west is behind the Wheat Pool in refusing to sell at bargain rates, proof lying in the fact that farmers not in the pool are also holding wheat for a rising market. "Looking to next year, there were good rains east of Regina a fortnight ago, but not in the Moose Jaw district. The astonishing thing this season has been the remarkable showing on summerfallow seeded to spring wheat, where not a drop of rain fell throughout the growing season, and yet a six to ten-bushel crop was reaped. Our prairie soil is not like your soil down here, because when we get rain it goes into the ground and does not wash away. It is a remarkably open season, and we may get good rains yet, but if we do not there will be snow and frost seepage in the spring and good rains in May and June will put the crop on its feet. But it is too early to talk about the 1930 crop. Tell people in the east there is nothing to worry about in the prairie west."

Plans For Convention

Dominion Breeders' Association To Meet In Regina Next Month

Regina.—Preliminary arrangements for the convention of the Dominion Breeders' Association, to be held in Regina, on March 24 to 28, 1930, were given attention by the Saskatchewan Livestock Board, at a recent meeting. A committee to take charge of these plans was appointed. It consists of C. M. Learmonth, J. G. Robertson, D. T. Elderkin, and R. A. Wright.

These Canadian Breeders' Associations meet in Toronto customarily, having met in the west previously only once. That was in Calgary a number of years ago. They are meeting in Regina, in 1930, on the invitation of the Saskatchewan Livestock Breeders and the Regina Board of Trade.

New Claimant For Earldom

Third Man Is Disputing Claim Of Alberta Rancher

London, England.—The dispute over the right to the earldom of Egmont, and the extensive estates near Ringwood, in Hampshire, has been complicated by the appearance of a third claimant, namely, R. Power, retired captain of Haydock, Lancashire. He claims to be a descendant of Hon. Philip Tufton Perceval, a brother of the fifth earl, Frederick Perceval, of Fiddis, Alberta, is at present disputing the earldom with James William Perceval, 66-year-old baker of North London. The Alberta man was believed to be the heir presumptive during the late earl's life and on the death of the earl came to England, and for a brief time occupied the estate.

Freight Rates Hearing

Board Of Railway Commissioners To Consider Cases East And West

Ottawa.—Two important hearings before the Board of Railway Commissioners will likely take place this fall, when the request of the maritime provinces for lower grain rates over the transcontinental railway and that of Alberta in connection with coal rates will be presented.

No dates have yet been fixed for Quebec hearings, and yet no formal application has been received from the maritime provinces. It is expected, however, that these will be set within the next day or so.

Have No Political Rights

Mexico City.—The Department of Interior has ruled women have no political rights in Mexico, and hence cannot vote in the presidential elections November 17. Its ruling was in answer to a query of women's clubs in the state of Coahuila.

GRAIN STORAGE CRISIS BELIEVED TO BE NOW OVER

Winnipeg.—The grain storage crisis has passed. The long plan at country points contain more than enough storage space to accommodate the unmarketed portion of the 1929 crop. Farmers' deliveries are falling off and are being balanced by the movement of the lake head, and lake head bins are being kept level by grain boats steaming steadily eastward.

Attentive observers of the western storage situation regarded these omens with relief. They looked back on a car-ratting move during the first half of October by both the Canadian National and the Canadian Pacific railways; they remembered the fear a month and more ago, that Port Arthur and Fort William elevators might soon be filled to overflowing and that the yards would be crammed with loaded grain cars.

Just 60,000,000 bushels of wheat remain to be loaded to the country elevators by grain farmers, it was estimated. And aggregate country storage on October 23—after a drop for the second successive day following continued rise for weeks—stood at 88,440,000 bushels. The bins still have capacity for more than 72,000,000 bushels, allowing range for 12,000,000 bushels of undelivered grain in addition to the wheat.

With grain deliveries falling off at Port Arthur and Fort William, the matter of time before movement to the lake-head will show a corresponding drop. Handlers of the grain are desirous of having no more grain at hand in terminal elevators after the opening season closes in November than is necessary to accommodate their winter needs. It is more economical storage in local elevators to the greatest possible extent.

MANITOBA MAY SOON CONTROL OWN RESOURCES

Ottawa.—Rapid progress has been made in regard to the natural resources agreement between the Dominion and the province of Manitoba in the last few days.

It was learned from cabinet sources that the Dominion has appointed O. M. Biggar, K.C., formerly the chief electoral officer of the Dominion, to act with A. B. Hudson, K.C., representing the province of Manitoba, in the actual drafting of the agreement which will be submitted to parliament and to the provincial legislature at the next session of these bodies.

Prior to the appointment of these two lawyers to act as a committee, it had been stated that the proposed agreement already was in draft form. It is now stated that this was not the case. The officials of the interior department, apparently had drawn up a rough outline of an agreement, but had not attempted to put it in final form. Mr. Hudson and Mr. Biggar, it is understood, had several lengthy conferences in Ottawa last week and this week, and while neither of them would discuss the matter, there is good ground for the belief that the very rapid progress was made, and that except for a few points which must be submitted to the two governments for decision, the agreement is rapidly taking on its final form.

Just what those special points involve is rather difficult to discover. Cabinet ministers, in touch with progress being made intimately recently, that there was a doubt if the water powers would be returned to Manitoba, and if large areas of land ought not to be retained by Ottawa. It was not suggested that the Dominion would insist in these matters, or attempt anyway to bring pressure upon the government of Manitoba. The point was, rather, that Manitoba might voluntarily agree to these resources being controlled in the future from the capital.

Succeeds Dean Ling

Saskatoon.—Dr. D. A. Wilson, head of the English Department of the University of Saskatchewan, has been appointed to the educational council of the province, succeeding Dean G. H. Ling, also of the University. Premier J. T. M. Anderson announced the appointment is effective immediately.

Indian Wins Ploving Match

Ottawa.—A 17-year-old Indian boy showed modern agriculturists how to do their stunt recently, and won first prize in the international ploving contest against 369 opponents. George Barlow was the winner. He owns a farm, which he bought himself at Middleton.

Will Meet As Friends

London, England.—Two war opponents in Germany East Africa, General von Lettow-Vorbeck and General Smuts, will meet at a dinner of British and South African soldiers, sailors and nurses here on December 2. Smuts will propose a toast to his former opponent.

Kite Flying Record

Lancaster, Pa.—The world's record for sustained kite flying was broken at New Haven, Conn., by John Gorman and Treuman Diem, both 13, whose kite, the "Spirit of New Holland," had remained in the air 52 hours and 20 minutes.

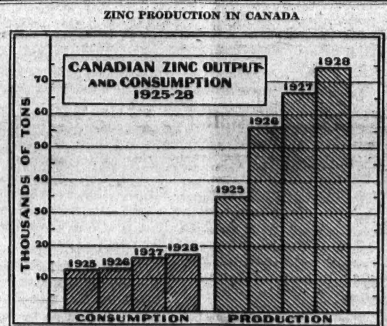

Sails To New Fields

Gall-Curtel After a Big Season To Tour the Orient

Regina.—Madame Gall-Curtel will sing at The Armouries, Regina, on Wednesday, November 6th, before she sails to a new field, almost the final one on the globe that her rare voice and personality have not already charmed. The diva's tour of the cities of Japan and China, with concerts also at Manila, in the Philippines, starts in February and ends in early summer.

For a number of years letters have been coming to Messrs. Evans and Salter, managers of Madame Gall-Curtel, insisting that the diva be spared by America long enough to tour the Orient. It was exactly the same, this long and positive insistence, before the diva made her tour of the British Isles, and later made a still more extended, singing journey to Australia and New Zealand.

This season again starting in early October, the famous singer is booked solidly in concert for November and December. Again in January and the opening season of February she is engaged for her usual opera appearances at the Metropolitan. Then comes the Gall-Curtel tour in lands on which the sun rises first.

Zinc is one of the metals of which Canada now produces a heavy exportable surplus, the last few years having witnessed a rapid increase in the spread between domestic production and consumption. According to figures published by the American Bureau of Metal Statistics, the Canadian output of zinc last year amounted to about four times the domestic consumption. British Columbia accounts for much the greater part, with Quebec as the other main contributor. Incidentally, the growth of production has converted zinc from a minor to a highly important item in Canadian mineral production, the value of the output last year exceeding ten million dollars.

"THE ROSARY"

"The Rosary," a drama in four acts, by Edward E. Ross, will be presented by the Blaimore Players at the local opera house on Wednesday and Thursday, November 13 and 14. The personnel of this local aggregation has appeared before Blaimore audiences on numerous occasions in the past and is almost the same as the one that presented "The New Boy" with such success last season, with the exception that two new artists will be seen in the cast, namely, Misses F. Warner, and L. Knapman.

The cast is as follows: Father Kelly, R. W. H. Pinkney; Bruce Wilton, R. Wootton; Kenward Wright, J. R. McLeod; Charley Harrow, L. McDonald; Skeeter, J. V. McDougall; Vera Wilton and Alice Marsh, twin sisters, Mrs. J. A. Packer; Kathleen O'Connor, Miss F. Warner; Lesura Watkins, Miss L. Knapman. Soloist, Mrs. J. A. Kerr; stage manager, G. McFadden; electrician, A. Velprava.

Proceeds of the performances this year will be devoted to Christmas cheer. Reserved seats are \$1.00 and the plan opens at the Blaimore Pharmacy on Monday next, November 4th. See bills for other information.

INSTITUTE PUBLIC LIBRARY

The library is making splendid progress. Each month more people are using it. The new shelving has been completed, thanks to Mr. Campbell and his brother. By Saturday, some 250 new volumes will be placed on the shelves.

Remember, the library is for you. Open Tuesdays and Saturdays from 7 to 9 p.m.

INSTITUTE OF MANUAL TRAINING AND HOME ART

The following classes are offered this winter, and will be conducted if sufficient enroll. An entrance fee of \$1.00 will be charged for all classes. Apply at once to Rev. J. W. Smith.

1. Manual training, 1st year—General principles of woodwork, coping saw work, puzzle making, use of tools.
2. Manual training, 2nd year—Fitting and joining simple useful articles, model making.
3. English for new Canadians.
4. Jesso-art-craft.

These classes are open to any boy or girl or citizen of Blaimore.

AN APPEAL

Owing to the distress which prevails in town, we have decided to start something in the interest of Child Welfare.

We therefore make an appeal to anyone having surplus clothing to hand same in to the Canadian Legion, Blaimore Branch, when same will be distributed to deserving cases.

W. J. FISHER, President
R. W. H. PINKNEY, Secretary

Archbishop Matthias, of Regina, distinguished scholar and dignitary, passed away on Saturday night, following a long illness. He was seventy-five years of age.

We were obliged to take down the receiver, the other day, so many people from Corbin, Michel and Fernie wanting to know when the Alberta Douks would be staging their parade.

Reduso

takes off two or more pounds with each bath without effort or discomfort. REDUSO has many satisfied users all over Canada.

Capt. Beebe didn't attend a dance last night. Friends will please mark that down.

The remains of the old rink building at Okotoks have been sold for a consideration of \$305.

Some men are born with a silver spoon in their mouths, but look as though it were a soup ladle.

Several carloads of prime cattle were shipped from Lundbreck yesterday for the Chicago market.

Mr. and Mrs. C. F. Sedgwick, of Nelson, are visitors here for a few days, arriving by motor yesterday.

Word was received at Cowley last week from England, announcing the birth of a son to Mr. and Mrs. Harold Gerry.

Bear in mind the big bazaar to be staged here on Saturday, November 9th, by the Ladies' Guild of St. Luke's church.

W. D. Spence, chairman of the Alberta Assessment Commission, Edmonton, was a visitor to this district the early part of the week.

As a result of yesterday's vote in Ontario, expert Washington bootleggers have abandoned the idea of moving to that part of Canada.

A Doukhobor woman refuses to come out of jail. Probably has become infatuated by some of the semi-nude dressed men there.

Gramm folks by the name of Honker had better keep away from the Cardston district. They are shooting "honkers" down there.

Albert Litherland, an employee of the West Canadian Collieries, Limited, at Bellevue, sustained a broken collar bone while at work on Friday night last.

Constable W. D. Munton, who since leaving Blaimore has been stationed at Manyberries and Whitecourt, has just been transferred from the latter place to Fort Fitzgerald.

SALE OF HOME COOKING, under auspices of Order of Eastern Star, will be held in Scott's Grocery on Saturday afternoon, November 2, from 3 to 6 o'clock. [N24-31]

The regular monthly meeting of the I. O. D. E. will be held at the home of Mrs. A. Womersley on Monday, November 4th, at 8 p.m. All members are urgently requested to be present.

Scientists tell us that every one hundred years the earth's day gets shorter by one-thousandth part of a second. Yes, we've noticed that nowadays there is hardly time to get things done.

An exchange remarks: Women have invaded practically every profession. They are found in medicine, in law, in architecture, in parliament, in the senate, and some may even be found in the kitchen.

The provincial government has purchased a building at Bassano, formerly occupied by McKee's men's wear store. The ground floor will be used as a vendor store, while the upstairs will contain the court room and offices.

Three years each and twenty laches each was the sentence passed upon T. E. Watts and W. Powell, charged with robbing a young German named Smidts at Willow Creek. The laches will be applied in two instalments of ten each. No doubt the second dow will be looked forward to with anxiety.

The pen is mightier than the sword unless it is a pig pen.

R. Linville and Frank Bennett are hunting in the vicinity of Gould's Dome.

An exchange remarks: "Women may sit in Canada's Senate." Provided they hold their tongues.

The local lodge of Pythian Sisters will hold their annual bazaar on Wednesday, November 20. [tn14]

Quite a number of Oddfellows from Blaimore and Coleman attended the district meeting at Bellevue on Monday night.

A. P. McWhinney, one of the Liberal candidates for Ontario's election of yesterday, died the day before the big battle.

Hon. Sidney Dora Blandford, high sheriff of Newfoundland since 1917, died at St. John's on Monday night, aged sixty-one.

J. Charbonnier, managing director of the West Canadian Collieries, Limited, arrived from France by Saturday morning's train.

A most successful whist drive and dance was held in the Lodge Hall last night by members of Greenhill Temple of Pythian Sisters.

Harold, son of Mr. and Mrs. Alan Young, of Macleod, suffered a fracture of the spine in a motor cycle accident at Vancouver.

Harold Tucker, former Calgary police officer, was at Lethbridge given three years in Prince Albert penitentiary, being found guilty of robbery.

Walter Johnson, manager of the Washington team of the American League, will impose a fine of \$500 on any of his players who attempt to play golf.

Sch Barry and "Hank" Le Vasseur, of Pincher Creek, were acquitted on the charge of cattle stealing in the criminal assizes at Macleod last week.

We were in error last week in stating that Joseph Tracz, of Blaimore, was sentenced to one month for attempted carnal knowledge. Tracz was given one year.

The many friends of Mr. G. N. Elwin, former druggist here, will be interested in learning that he is now a resident of Regina and hopes in the near future to pay the old stamping ground a visit.

Get your order for Greeting Cards in now. The Enterprise has 2000 samples to choose from and are offering a ten per cent discount on all orders received up to November 20th. It is not too early to secure your cards for old country mailing.
